Event Slavoj Žižek:

Event Slavoj Žižek, 2014-08-26 One of the most famous living philosophers provides a philosophical analysis of the meaning of events in this deeply interesting and provocative book *The Guardian*. An event can be an occurrence that shatters ordinary life, a radical political rupture, a transformation of reality, a religious belief, the rise of a new art form, or an intense experience such as falling in love. Taking us on a trip that stops at different definitions of event, Žižek addresses fundamental questions such as: are all things connected? How much are we agents of our own fates? Which conditions must be met for us to perceive something as really existing? In a world that's constantly changing, is anything new really happening? Drawing on references from Plato to arthouse cinema, the Big Bang to Buddhism, *Event* is a journey into philosophy at its most exciting and elementary.

Event Slavoj Žižek, 2014-01-30 Probably the most famous living philosopher, Slavoj Žižek explores the concept of event in the second in this new series of easily digestible philosophy. Agatha Christie's *4 50 from Paddington* opens on a train from Scotland to London where Elspeth McGillicuddy, on a way to visit her old friend Jane Marple, sees a woman strangled in a compartment of a passing train, the *4 50* from Paddington. It all happens very fast and in a blurred vision so the police don't take Elspeth's report seriously as there is no evidence of wrongdoing; only Miss Marple believes her story and starts to investigate. This is an event at its purest and minimal: something shocking that happens all of a sudden and interrupts the usual flow of things, something that appears out of nowhere without discernible causes and whose ontological status is unclear, an appearance without solid being as its foundation. In Christie's novel, the role of Miss Marple is precisely to de-eventalize the event, to explain it away as an occurrence which fits the coordinates of our normal reality. A subject for which there is not yet an agreed-upon definition within philosophy, Slavoj Žižek explores the terrain of this contestable term in a series of short chapters that examine everything from the event as political revolution and the rise of a new art form to the event as religious belief and falling in love. *Event* is a mind-blowing, thrilling, accessible book from arguably our greatest living cultural theorist and philosopher. Slavoj Žižek is a Slovenian philosopher and cultural critic. The author of many books, he has made contributions to political theory, film theory, and theoretical psychoanalysis.

Philosophy in Transit *Event Slavoj Žižek, 2014-02-25* Probably the most famous living philosopher, Slavoj Žižek explores the concept of event in the second in this new series of easily digestible philosophy. What is really happening when something happens? In the second in a new series of accessible, commute-length books of original thought, Slavoj Žižek, one of the world's greatest living philosophers, examines the new and highly contested concept of Event. An Event can be an occurrence that shatters ordinary life, a radical political rupture, a transformation of reality, a religious belief, the rise of a new art form, or an intense experience such as falling in love. Taking us on a trip which stops at different definitions of Event, Žižek addresses fundamental questions such as: are all things connected? How much are we agents of our own fates?
