Understanding Media Psychology

Gayle S. Stever, David C. Giles, J. David Cohen, Mary E. Myers, 2025-07-23 *Understanding Media Psychology* is an authoritative introductory textbook on the growing field of media psychology. Providing an overview of topics in the field, it summarizes key concepts and theories and considers the importance of media psychology in today's society. The second edition of this bestselling textbook has been fully updated to reflect the changing landscape of media psychology. The new edition features a brand new chapter on news and political media as well as increased focus on AI and new forms of social media. It covers core areas such as positive media psychology, audience research, and the effect of gaming, violence, advertising, and pornography, critically engaging with contemporary discussions around propaganda, fake news, deepfakes, and how media and health psychology interacted during the COVID-19 pandemic and beyond. Written by a team of expert authors, this book will help readers understand the structures, influences, and theories around media psychology. Particular care is also given to addressing the interaction between issues of social justice and the media, as well as the effects media has on both the members of marginalized groups and how those groups are perceived. A student website and instructor resources provide further ways to engage with the content and support teaching and learning. Containing a range of pedagogical features throughout to aid teaching and student learning, including vocabulary and key terms, discussion questions, and boxed examples, this is an essential resource for media psychology courses at the undergraduate and introductory master's levels globally.

MLA Guide to Digital Literacy (Updated with AI Guidance) Ellen C. Carillo, 2026-03-06 The third edition of this best-selling classroom guide helps students understand why digital literacy is a crucial skill for their education, future careers, and participation in democracy. Offering practical guidance for assessing information online, this guide provides students with the tools to locate reliable sources among the clickbait and viral videos that pervade the web. The guide's hands-on activities, germane readings, and lesson plans give students strategies for reading and analyzing data visualizations, finding and evaluating credible sources, learning how to spot fake news, fact-checking, crafting a research question effectively, conducting searches on Google and on library catalogs and databases, finding peer-reviewed publications, evaluating primary sources, and understanding disinformation and misinformation, filter bubbles, propaganda, and satire in a variety of sources including websites, social media posts, infographics, videos, and more on platforms like Facebook, X (formerly Twitter), Instagram, TikTok, and YouTube. New to the third edition is a chapter on generative AI (GenAI), including information on how GenAI is trained, uses of GenAI tools, GenAI-powered search engines, prompting GenAI, and evaluating GenAI output, a consideration of ethical issues related to GenAI, including impacts on the environment and on intellectual property, privacy, and bias in searches, a discussion of GenAI and plagiarism, an updated discussion of deepfakes, fake headlines, and other forms of misinformation, student exercises on using GenAI, a lesson plan that invites students to reflect on the benefits and limitations of using GenAI to support their reading practices.
