process they undermine the very roots of the innate wisdom that is meant to flower into intuition In this volume Osho pinpoints exactly what intuition is and gives guidelines for how to identify its functioning in others and ourselves You will learn to distinguish between genuine intuitive insight and the wishful thinking that can often lead to mistaken choices and unwanted consequences Includes many specific exercises and meditations designed to nourish and support each individual's natural intuitive gifts OSHO challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to experience life in all its richness He has been described by the Sunday Times of London as one of the 1000 Makers of the 20th Century and by Sunday Mid Day India as one of the ten people along with Gandhi Nehru and Buddha who have changed the destiny of India More than a decade after his death in 1990 the influence of his teachings continues to expand reaching seekers of all ages in virtually every country of the world

New Brain, New World Erik Hoffman, 2012 A fascinating insight into just how different our world could be if the human brain continues to evolve allowing us to access higher levels of consciousness New Brain New World uses cutting edge brain research to show how the ongoing evolution of the human brain could bring about a shift in human consciousness ultimately creating a better world We all know that over millions of years the human brain has evolved in many significant ways so why would we assume that this process is not still happening Based on a lifetime of research into brain function the science of consciousness and brain wave training this book looks at how our brains may yet evolve and the exciting implications that these developments may have for human consciousness The author maintains that the global crisis facing us is basically a crisis of consciousness and it is the human ego with its destructive feelings and insatiable greed that stands in the way of a new and better world He believes that the evolution of the human brain can make that world a reality This book explores the science of consciousness the evolution of the human brain how it has developed over millions of years and how there is a huge potential latent in the part of the brain called the frontal cortex expanding human consciousness the effects on the brain of meditation feeling release therapy and the drinking of ayahuasca the mind expanding herbal tea kundalini an evolutionary energy in man awareness as a driving force in consciousness development how we can play our own parts in helping our brains to evolve and access higher levels of consciousness by using alpha brain wave training for body awareness and grounding and frontal gamma wave training for focus and presence the new human brain looking towards a new future the exciting possibilities for positive change and increased peace love and compassion in the world if the human brain evolves
