Taking the Air Paul Kopas, 2007-12-01 Natural resource management is a major area of Canadian policy as recent literature reveals Yet analysts have devoted little attention to the management of parks and protected areas In *Taking the Air* Paul Kopas takes a comprehensive approach to this aspect of policy debate He scrutinizes the policy making process for national parks since the mid 1950s and interrogates the rationale and policies that have governed their administration Kopas argues that national parks and park policy reflect not only environmental concerns but also the political and social attitudes of bureaucrats citizens interest groups Aboriginal peoples and legal authorities He explores how the goals of each group have been shaped by the historical context of park policy influencing the shape and weight of their contributions *Rules and Regulations, Mount Rainier National Park* United States. that satisfies cosmopolitan hunger for authenticity and a certain type of self making Weaving together strands of research that have not been previously integrated the book gleans meaning from concessions menus and park restaurant web pages and employs audience analysis to take stock of park restaurant visitors contributions to restaurant review websites as well as to understand how they represent their park eating experiences on social media The book examines how satisfying cosmopolitan tastes in the parks creates profit for corporate concessioners but also may produce bioregionalist successes and a recentering of Indigenous foodways It concludes by exploring inroads to a better food experience in the parks involving food products and processes that are regionally locally specific where tourists witness and participate in food production and enjoy commensality but that are also non extractive and show care for the environment and the people who inhabit it This book will be of great interest to students and scholars of food studies tourism and hospitality sociology of culture parks and recreation American studies and environmental studies The book will also be of interest to parks and recreation decision makers sustainable tourism leaders and hospitality managers **Report** United States.
