

The poster features a large, detailed illustration of Captain Smith in a dark naval uniform with a white ruffled collar and a peaked cap adorned with a gold emblem. He has a serious, determined expression. In the background, the Titanic is shown in a dramatic, tilted position, partially submerged in the ocean. The ship's hull is dark, and its white superstructure is visible. The sea is dark blue with white foam from the ship's sinking. In the foreground, several lifeboats are visible, some filled with people, floating on the water. The overall scene is set against a dark, stormy sky.

A Night To Remember:

One Hundred and Sixty Minutes William Elliott Hazelgrove, 2021-09-01 One hundred and sixty minutes That is all the time rescuers would have before the largest ship in the world slipped beneath the icy Atlantic There was amazing heroism and astounding incompetence against the backdrop of the most advanced ship in history sinking by inches with luminaries from all over the world It is a story of a network of wireless operators on land and sea who desperately sent messages back and forth across the dark frozen North Atlantic to mount a rescue mission More than twenty eight ships would be involved in the rescue of Titanic survivors along with four different countries At the heart of the rescue are two young Marconi operators Jack Phillips 25 and Harold Bride 22 tapping furiously and sending electromagnetic waves into the black night as the room they sat in slanted toward the icy depths and not stopping until the bone numbing water was around their ankles Then they plunged into the water after coordinating the largest rescue operation the maritime world had ever seen and thereby saving 710 people by their efforts The race to save the largest ship in the world from certain death would reveal both heroes and villains It would begin at 11 40 PM on April 14 when the iceberg was struck and would end at 2 20 AM April 15 when her lights blinked out and left 1500 people thrashing in 25 degree water Although the race to save Titanic survivors would stretch on beyond this most people in the water would die but the amazing thing is that of the 2229 people 710 did not and this was the success of the Titanic rescue effort We see the Titanic as a great tragedy but a third of the people were rescued and the only reason every man woman and child did not succumb to the cold depths is due to Jack Phillips and Harold McBride in an insulated telegraph room known as the Silent Room These two men tapping out CQD and SOS distress codes while the ship took on water at the rate of 400 tons per minute from a three hundred foot gash would inaugurate the most extensive rescue operation in maritime history using the cutting edge technology of the time wireless *The Titanic in Myth and Memory* Tim Bergfelder, Sarah Street, 2004-08-27 Since its maiden voyage and sinking in April 1912 Titanic has become a monumental icon of the 20th century and has inspired a wealth of interpretations across literature art and media This book offers a comprehensive discussion of the diverse representations of the connections and differences in the way generations of artists and audiences have approached and used the tragedy In the final section is an in depth study of James Cameron s blockbuster film Titanic [The Encyclopedia of Epic Films](#) Constantine Santas, James M. Wilson, Maria Colavito, Djoymi Baker, 2014-03-21 Soon after film came into existence the term epic was used to describe productions that were lengthy spectacular live with action and often filmed in exotic locales with large casts and staggering budgets The effort and extravagance needed to mount an epic film paid off handsomely at the box office for the genre became an immediate favorite with audiences Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years Length was and still is one of the traits of the epic though monolithic three to four hour spectacles like *Gone with the Wind* 1939 and *Lawrence of Arabia* 1962 have been replaced

today by such franchises as the Harry Potter films and the Lord of the Rings trilogy Although the form has evolved during many decades of existence its central elements have been retained refined and modernized to suit the tastes of every new generation The Encyclopedia of Epic Films identifies describes and analyzes those films that meet the criteria of the epic sweeping drama panoramic landscapes lengthy adventure sequences and in many cases casts of thousands This volume looks at the wide variety of epics produced over the last century from the silent spectacles of D W Griffith and biblical melodramas of Cecil B DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg Each entry contains Major personnel behind the camera including directors and screenwriters Cast and character listingsPlot summaryAnalysisAcademy Award wins and nominationsDVD and Blu ray availabilityResources for further study This volume also includes appendixes of foreign epics superhero spectaculars and epics produced for television along with a list of all the directors in the book Despite a lack of overall critical recognition and respect as a genre the epic remains a favorite of audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters The Encyclopedia of Epic Films will be of interest to academics and scholars as well as any fan of films made on a grand scale
