*Small Groups* John M. Levine, Richard L. Moreland, 2008-02-19 Research on small groups is highly diverse because investigators who study such groups vary in their disciplinary identifications theoretical interests and methodological preferences The goal of this volume is to capture that diversity and thereby convey the breadth and excitement of small group research by acquainting students with work on five fundamental aspects of groups The volume also includes an introductory chapter by the editors which provides an overview of the history of and current state of the art in the field Together with introductions to each section discussion questions and suggestions for further reading make the volume ideal reading for senior undergraduate and graduate students interested in group dynamics

*The Developmental Psychology of Planning* Sarah L. Friedman, Ellin Kofsky Scholnick, 2014-02-25 Planning is

defined as formulating an organized method for action in advance Although people do not plan all the time and planning does not occur in every situation planning skill is central to all human behavior There are developmental differences in planning skill and in the motivation to plan Even among adults variations in the engagement in the planning process are affected by individual attitudes beliefs and goals Planning also has a different meaning at various junctures in one s life Yet despite the amount of research on planning many of the studies have focused only on the cognitive processes that enable mature individuals to plan A continued exploration of the developmental course of planning this text attempts to situate cognitive aspects of planning in the context of the social and cultural environment and other psychological processes Bringing together the contributions of developmental organizational and social psychologists it explains how when and why we plan Finally it addresses various issues that pertain to the different aspects of planning from formal problem solving to handling the demands of everyday life
