Modernizing Academic Teaching and Research in Business and Economics Jorge Marx Gómez, Marie K.

Aboujaoude, Khalil Feghali, Tariq Mahmoud, 2017-04-25 This proceedings volume brings together the results of a corporate discussion on research academic teaching and education in the field of business and economics in the context of globalization. The contributions examine leadership and sustainability, quality and governance, and the internationalization of higher education. With a particular focus on business education and business schools, the book discusses the labor market and modernization, as well as contemporary trends and challenges. By including both academic papers and contributions from industry, it forges research links between academia, business, and industry. Teaching Innovation in Architecture and Building Engineering

David Bienvenido-Huertas, María Luisa de la Hoz-Torres, Antonio Jesús Aguilar Aguilera, 2024-06-19 This book presents contributions on teaching innovation in university architecture and building engineering studies. The authors explain how the construction sector demands that future architects and building engineers have the knowledge and skills that allow them to meet the decarbonization objectives established by international organizations and that this causes the level of knowledge to be higher. The contributors further discuss new technologies and the internationalization of studies, presenting new challenges university studies must face. This heterogeneity is represented in the chapters that make up this book, developed by researchers from different countries. The book is divided into three blocks: i) Active learning methodologies, ii) Innovative methodologies applied to learning process, and iii) Traditional vs. Advanced Techniques. The chapters of the book represent an advance in the current knowledge of teaching innovation techniques in university architecture and building engineering studies.

Managing Technology for Business Value Stephen McLaughlin, 2020-05-07 This book will appeal primarily to postgraduate business studies students who seek to better understand how to use technology to improve organizational performance. It provides insights into how technology can both positively and negatively influence the way we create, share, and act upon information and knowledge. Taking as a starting point the premise that we now live and operate in a knowledge-intensive, information-driven world where data is arguably the most valuable resource, any organization possesses, it argues that we cannot see technology simply as a commodity or a cost to the business. Therefore, every organizational decision maker must be more aware of the impact technology can have on the knowledge practices and habits of employees, building and sustaining collaborative relationships, and the ability to realize strategic goals in a dynamic and highly competitive environment. *Research Anthology on E-Commerce Adoption, Models, and Applications for Modern Business Management*
