MARY BAKER EDDY, 1915 **Developing Tests and Questionnaires for a National Assessment of Educational Achievement** Prue Anderson, George Morgan, 2008-01-01 *Developing Tests and Questionnaires for a National Assessment of Educational Achievement* is the second in the National Assessments of Educational Achievement series. It is designed to help build capacity in carrying out technically adequate assessments of national levels of student achievement. It introduces readers to the activities involved in the development of achievement tests and includes developing an assessment framework, writing multiple choice and constructed response type items, pretesting, producing test booklets, and handscoring items. A section on questionnaire construction features **Assessment and Learning in Content and Language Integrated Learning (CLIL) Classrooms** Mark deBoer, Dmitri Leontjev, 2020-11-17 This volume builds a conceptual basis for assessment promoting learning in Content and Language Integrated Learning (CLIL) classrooms and proposes practical assessment approaches and activities that CLIL teachers can apply in the classroom. CLIL as an educational context is unique as language and content learning happen simultaneously. The efficacy of such instruction has been studied extensively, but assessment in CLIL classrooms has drawn much less attention. The present volume aims to fill this gap. Arranged based on different ways that content and language are integrated in CLIL, the chapters in this book together build a solid theoretical basis for assessment promoting learning in CLIL classrooms. The authors discuss how assessment eliciting this integration yields insights into learners' abilities, but more importantly, how these insights are used to promote learning. The contributors to the volume together build the understanding of classroom based assessment as cyclic of teaching, learning, and assessment as inter related, and of content and language in CLIL classrooms as a dialectical unity. This volume will spark interest in and discussion of classroom based assessment in CLIL among CLIL educators and researchers, enable reflection of classroom assessment practices, and foster collaboration between CLIL teachers and researchers. The assessment approaches and

activities discussed in the volume in turn will help educators understand the scope of applications of assessment and inspire them to adapt these to their own classrooms
