William P. Bintz

Learning vocabulary is an important instructional aim for teachers in all content areas in middle grades schools (Harrison, Wood, & Kiser, 2009). Recent research, however, indicates that vocabulary instruction may be problematic because many teachers are not “confident about best practice in vocabulary instruction and at times don’t know where to begin to form an instructional emphasis on word learning” (Berne & Blachowicz, 2008, p. 315).

In this article, I summarize important research on vocabulary growth and development and share effective instructional strategies that middle school teachers can use to teach vocabulary across the content areas. My hope is that teachers will use these strategies to help students become verbophiles—“people who enjoy word study and become language enthusiasts, lovers of words, appreciative readers, and word-conscious writers” (Mountain, 2002, p. 62).

## The importance of vocabulary

Vocabulary can be defined as “the words we must know to communicate effectively: words in speaking (expressive vocabulary) and words in listening (receptive vocabulary)” (Neuman & Dwyer, 2009, p. 385). An extensive body of research exists on teaching and

learning vocabulary. This research clearly indicates that enlargement of vocabulary has always been and continues to be an important goal in literacy and learning (National Institute of Child Health and Human Development, 2004). Educators have long recognized the importance of vocabulary development. In the early 20th century, John Dewey (1919) stated that vocabulary is critically important because a word is an instrument for thinking about the meanings which it expresses. Since then, there has been an “ebb and flow of concern for vocabulary” (Manzo, Manzo, & Thomas, 2006, p. 612; see also Blachowicz & Fisher, 2000). At times, interest in vocabulary has been high and intense, and at other times low and neglected, alternating back and forth over time (Berne & Blachowicz, 2008).

## Research on vocabulary growth and development

Vocabulary has long been an important topic in middle grades education, but today it could be considered a hot topic (Cassidy & Cassidy, 2003/2004). The National Assessment Governing Board, for example, has added a separate vocabulary component to gauge student achievement in reading nationwide (Manzo, 2004). This
