Handbook of Near-Infrared Analysis Emil W. Ciurczak, Benoît Igne, Jerome Workman, Jr., Donald A. Burns, 2021-05-19
Rapid inexpensive and easy to deploy near infrared NIR spectroscopy can be used to analyze samples of virtually any composition origin and condition The Handbook of Near Infrared Analysis Fourth Edition explores the factors necessary to perform accurate and time and cost effective analyses across a growing spectrum of disciplines This updated and expanded edition incorporates the latest advances in instrumentation computerization chemometrics applied to NIR spectroscopy and method development in NIR spectroscopy and underscores current trends in sample preparation calibration transfer process control data analysis instrument performance testing and commercial NIR instrumentation This work offers readers an unparalleled combination of theoretical foundations cutting edge applications and practical experience Additional features include the following Explains how to perform accurate as well as time and cost effective analyses Reviews software enabled chemometric methods and other trends in data analysis Highlights novel applications in pharmaceuticals polymers plastics petrochemicals textiles foods and beverages baked products agricultural products biomedicine nutraceuticals and counterfeit detection Underscores current trends in sample preparation calibration transfer process control data analysis and multiple aspects of commercial NIR instrumentation Offering the most complete single source guide of its kind the Handbook of Near Infrared Analysis Fourth Edition continues to offer practicing chemists and spectroscopists an unparalleled combination of theoretical foundations cutting edge applications and detailed practical experience provided firsthand by more than 50 experts in the field

Standardization and Quality Assurance in Fluorescence Measurements I Ute Resch-Genger, 2008-08-06 Analytical chemists and materials scientists will find this a useful addition to their armory The contributors have sought to highlight the present state of affairs in the validation and quality assurance of fluorescence measurements as well as the need for future standards Methods included range from steady state fluorometry and microfluorometry microscopy and micro array technology to time resolved fluorescence and fluorescence depolarization imaging techniques

[Photoelectrochemical Water Splitting](#) Zhebo Chen, Huyen N. Dinh, Eric Miller, 2013-08-28 This book outlines many of the techniques involved in materials development and characterization for photoelectrochemical PEC for example proper metrics for describing material performance how to assemble testing cells and prepare materials for assessment of their properties and how to perform the experimental measurements needed to achieve reliable results towards better scientific understanding For each technique proper procedure benefits limitations and data interpretation are discussed Consolidating this information in a short accessible and easy to read reference guide will allow researchers to more rapidly immerse themselves into PEC research and also better compare their results against those of other researchers to better advance materials development This book serves as a how to guide for researchers engaged in or interested in engaging in the field of photoelectrochemical PEC water splitting PEC water splitting is a rapidly growing field of research in

which the goal is to develop materials which can absorb the energy from sunlight to drive electrochemical hydrogen production from the splitting of water The substantial complexity in the scientific understanding and experimental protocols needed to sufficiently pursue accurate and reliable materials development means that a large need exists to consolidate and standardize the most common methods utilized by researchers in this field

Spectrophotometry, Luminescence, and Colour Christopher Burgess, Dianna G. Jones, 1995 This book contains papers presented at the Second Joint Meeting of the UV Spectrometry Group of the UK and the Council for Optical Radiation Measurements of the USA Topics included are compliance and validation in spectrophotometry advances in spectrophotometric measurements instrument manufacturers approaches to compliance advances in fluorescence techniques and advances in spectrophotometry The balance of the conference has shifted from the 1986 mix towards more applications but once again the National Laboratories have provided an excellent update on the state of the art in many areas

Reviews in Fluorescence 2007 Chris D Geddes, 2009-11-19 This fourth volume in the Springer series summarizes the year's progress in fluorescence with authoritative analytical reviews specialized enough for professional researchers yet also appealing to a wider audience of scientists in related fields
