Critical Theory Since Plato:

Critical Theory Since Plato Hazard Adams, 1971 CRITICAL THEORY SINCE PLATO is a chronologically arranged anthology that presents a broad survey of the history and development of literary criticism and theory in Western culture. Written by two well known scholars in the field of literary study this well respected text puts an emphasis on the individual contributors to the development of literary criticism from Plato and Aristotle to the present. Critical Theory Since Plato Hazard Adams, 1971 **Critical Theory Since Plato, Pp. 1041-1048** H. Adams, *Critical Theory Since Plato* Hazard Adams, 1992 This outstanding anthology traces major critical statements from classic theorists like Plato to the contemporary. This standard historical textbook in the field focuses on important individual thinkers and not particular schools of thought or isms. Current selections bring the anthology into contemporary times and show students how critical theory has evolved and progressed over time. **Murray Krieger and Contemporary Critical Theory** Bruce Henricksen, 1986-05-19 Why do smokers claim that the first cigarette of the day is the best? What is the biological basis behind some heavy drinkers' belief that the hair of the dog method alleviates the effects of a hangover? Why does marijuana seem to affect one's problem solving capacity? *Intoxicating Minds* is in the author's words a grand excavation of drug myth. Neither extolling nor condemning drug use it is a story of scientific and artistic achievement, war and greed, empires and religions, and lessons for the future. Ciaran Regan looks at each class of drugs describing the historical evolution of their use, explaining how they work within the brain's neurophysiology and outlining the basic pharmacology of those substances. From a consideration of the effect of stimulants such as caffeine and nicotine and the reasons and consequences of their sudden popularity in the seventeenth century, the book moves to a discussion of more modern stimulants such as cocaine and ecstasy. In addition, Regan explains how we process memory, the nature of thought disorders, and therapies for treating depression and schizophrenia. Regan then considers psychedelic drugs and their perceived mystical properties and traces the history of placebos to ancient civilizations. Finally, *Intoxicating Minds* considers the physical consequences of our co-evolution with drugs, how they have altered our very being, and offers a glimpse of the brave new world of drug therapies. *Machado de Assis and Narrative Theory* Earl E. Fitz, 2019-06-05 This book makes the argument that Machado de Assis, hailed as one of Latin American literature's greatest writers, was also a major theoretician of the modern novel form. Steeped in the works of Western literature and an imaginative reader of French Symbolist poetry, Machado creates between 1880 and 1908 a new narrative one that will presage the groundbreaking theories of Swiss linguist Ferdinand de Saussure by showing how even the language of narrative cannot escape being elusive and ambiguous in terms of meaning. It is from this discovery about the nature of language as a self-referential semiotic system that Machado crafts his new narrative. Long celebrated in Brazil as a dazzlingly original writer, Machado has struggled to gain respect and attention outside the Lusophone Brazilian ken. He is the epitome of the outsider or marginal, the iconoclastic and wildly innovative genius who hails from a culture rarely studied in the Western literary

hierarchy and so consigned to the status of eccentric Had the Brazilian master written not in Portuguese but English French or German he would today be regarded as one of the true exemplars of the modern novel in expression as well as in theory Published by Bucknell University Press Distributed worldwide by Rutgers University Press Critical Theory Since Plato Hazard Adams, Leroy Searle, 2005 CRITICAL THEORY SINCE PLATO is a chronologically arranged anthology that presents a broad survey of the history and development of literary criticism and theory in Western culture Written by two well known scholars in the field of literary study this well respected text puts an emphasis on the individual contributors to the development of literary criticism from Plato and Aristotle to the present Fusion of Critical Horizons in Chinese and Western Language, Poetics, Aesthetics Ming Dong Gu, 2021-07-07 This book begins with a reflection on dichotomies in comparative studies of Chinese and Western literature and aesthetics Critiquing an oppositional paradigm Ming Dong Gu argues that despite linguistic and cultural differences the two traditions share much common ground in critical theory aesthetic thought metaphysical conception and reasoning Focusing on issues of language writing and linguistics metaphor metonymy and poetics mimesis and representation and lyricism expressionism creativity and aesthetics Gu demonstrates that though ways of conception and modes of expression may differ the two traditions have cultivated similar aesthetic feelings and critical ideas capable of fusing critical and aesthetic horizons With a two way dialogue this book covers a broad spectrum of critical discourses and uncovers fascinating connections among a wide range of thinkers theorists scholars and aestheticians thereby making a significant contribution to bridging the aesthetic divide and envisioning world theory and global aesthetics *Redefining Liberal Arts Education in the Twenty-First Century* Robert E.
