Martine Irma Robbeets, 2005 Where does Japanese come from The linguistic origin of the Japanese language is among the most disputed questions of language history One current hypothesis is that Japanese is an Altaic language sharing a common ancestor with Korean Tungusic Mongolic and Turkic But the opinions are strongly polarized Especially the inclusion of Japanese into this classification model is very much under debate Given the lack of consensus in the field this book presents a state of the art for the etymological evidence relating Japanese to Korean Tungusic Mongolic and Turkic The different Altaic etymologies proposed in the scholarly literature are gathered in an etymological index of Japanese appended to this book An item by item sifting of the evidence helps to hold down borrowings universal similarities and coincidental look alikes to a small percentage When the remaining core evidence is screened in terms of phonological regularity the answer to the intriguing question is beginning to take shape **The Japanese and Korean Experiences in Managing Development** Miyoehei Shinohara, Kwang Suk Kim, 1983 The remarkable economic growth achieved by Japan and Korea makes analysis of the style of economic management practiced in each of special interest Some similarities emerge specifically a strong partnership between government and the private sector an export oriented development strategy and emphasis on education and the development of skills The policies differed in that government became the more senior partner and the apparatus of planning and policy making was more centralized and streamlined in Korea and Korea relied much more on foreign trade Although the experience of these two countries in general confirms that prices markets and outward orientation can play a significant part in economic development their styles of economic management do not fall neatly into the conventional pigeonholes in economics No definitive conclusions as to transferability of the Japanese and Korean techniques emerge but some important
