different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now [How to Become a Digital Nomad](#) Annie Erling Gofus, Team TripScout, Konrad Waliszewski, 2017-06-27 How to Become a Digital Nomad is the most practical step by step guide to living a location independent digital nomad lifestyle regardless of your career while making money and doing the work you love This book is not written in the hypothetical It is not motivational and philosophical fluff It is not for backpackers who simply want to teach English It is not for the independently wealthy travelers or Instagram stars It is written by real digital nomads who have made a life and career doing what they love where they love doing it For those who like their job we provide an actionable guide to help you convince your employer and transition your work to be remote For those who don't like their job we will teach you how to find location independent jobs start a business earn money as a freelancer or consultant and sell your digital nomad lifestyle as a perk to potential clients customers or employers We dive in deep on the following topics Turn any skill into a location independent career Find a remote job or consulting freelance clients Start and run a business abroad Best places to travel and work as a digital nomad Co working spaces and digital nomad hubs communities around the world Organized digital nomad programs like Remote Year Visa requirements for digital nomads Packing and preparing to become a digital nomad Important resources for digital nomads Required technology hardware and software Staying productive while traveling Overcoming the inevitable psychological impacts Common barriers e.g kids pets debt and medical concerns Manage and collaborate with distributed teams effectively Legal tax and financial implications of the digital nomad lifestyle How to sell your digital nomad experience to potential employers or customers Insights from some of the world's most successful digital nomads The relationship between the work we do and where we do it has changed With productivity moving to the cloud for nearly every industry the days where work is a place are over We believe that what you do no longer depends on where you do it so you should do it wherever you are most productive creative
