

Core Surgical Interview Guide 2016

5th Edition

SECTION 1 CLINICAL

Past stations with model answers given at interview by candidates. Advice on how to approach the question, communicate your knowledge effectively and supplementary clinical information to make nursing for the clinical station easy.

SECTION 2 PORTFOLIO

Optimise your portfolio and make it stand out and impress your interviewers. Prepare for the new format of the portfolio station including prepared presentation station. Supplementary questions from recent interviews on your portfolio with advice on how to best answer them.

SECTION 3 MANAGEMENT

The dreaded management station made simple. Past stations with useful structures that you can use when faced with difficult questions. Our authors, who all previously went through the interview take you through common questions, and advise you on how to score maximum points.

ISBN: 978-0-9576100-3-3

The Guide for the Core Surgical Interview Core Surgical Training

Core Surgical Training in the UK is a two year programme designed to provide junior surgeons with general operative skills, clinical experience of both acute and ward based surgical care, and to introduce trainees to a range of sub-specialities. By the end of CT2 you will have completed 24 months in surgery, a prerequisite for progression to ST3 level.

The structure of training varies throughout the country but normally comprises of 4 or 6 month rotations. These are themed in some deaneries such as in Manchester where a core trainee will do around 18 months of one speciality and 6 months of another, or varied, like in London where you do 4 month rotations in CT1 and then two 6 month rotations in CT2, one of which will be the sub-speciality of your choice.

At the end of Core Training you apply to Speciality Training, ST3-ST8, which leads to a Certification of Completion of Training (CCT), allowing you to become a Consultant.

Ranking for your CT1 job matters. If you get a high enough rank to be given 2 or 3 of the sub-specialities of your choice, or indeed the themed job of your choice, then you are setting yourself up with a great chance at that ST3 number. If you just scrape into core training then you have to take what you are given, and may not be able to do your chosen

specialty before ST3 interviews. Clearly you would be at a disadvantage to the candidate above who has already got 6 months of experience and project completion. This is why we encourage all applicants to put every effort into preparing for the interviews. It may be too late now to publish another paper, but it is not too late to polish your interview technique, and read up on the topics commonly asked. The Core Surgical Interview Guide aims to make this process easier for you by providing a structure with which you can answer questions, through in-depth discussion of the questions that we were asked over the last few years.

We aim to demystify the core surgical application, and provide relevant advice on how to prepare for the interview. The stations provided here follow the actual format you will experience at interview,

Core Surgical Interview
