## **Bad Science Ben Goldacre Free:**

Free Association Steven Sidley, 2017-04-19 Max Lurie's navel gazing podcast about his life has become an unexpected success. But its embellishments and inventions are starting to leak into his everyday life. As Max tries to navigate the grey areas between fact and fiction, things begin to spin out of control. He juggles real and imagined girlfriends, an illegally procured firearm, an unpredictable friendship with a homeless schizophrenic, his acerbic immigrant producer, his dying father, his famous childhood sweetheart, an unlikely romantic entanglement, and his critical and growing audience. Can he keep all of these balls in the air and finally bring them safely to rest? This story takes a deep and satiric dive into the worlds we imagine for ourselves and the lives we actually live, particularly in a time when our real and digital personas intersect and merge in chaotic ways. *Free Association* casts a steely and comic eye on the great and small concerns of being human, the chances we take, and miss the pain of not fitting in, the fragility of the psyche, the unpredictability of love, the dull certainty of death, the importance of listening to others, and the careening craziness of it all.

**Running Free of Injuries** Paul Hobrough, 2016-09-08 The ultimate pain to personal best guide to running injuries covering prevention, detection, and rehabilitation. Runners suffer from the highest injury rates of all recreational athletes. Whether you are a novice or elite level runner, guide yourself through a step-by-step process of avoiding and managing injury. Written by a globally respected physiotherapist who has worked with Olympic and World Champion athletes, *Running Free of Injuries* will help runners to understand their body, identify weaknesses, and develop a natural defence against injury. The book covers the most common running injuries that occur to the foot, ankle, lower leg, hip, knee, and pelvis, and includes key exercises applicable to all levels of fitness.

*Guilt-free Bottle Feeding* Madeleine Morris, 2014-09-15 You are not a bad mother if you can't breastfeed. For decades, mums have been told that breast is best, that breastfeeding is the single most important thing we can do for our children. Despite this huge pressure on modern mums, the vast majority of us end up using formula. And we feel guilty. In *Guilt Free Bottle Feeding*, award-winning journalist Madeleine Morris and paediatrician Dr Sasha Howard challenge the simplistic message of breast is best, revealing what everybody knows but nobody says out loud: that bottle-fed babies can grow up to be perfectly happy, healthy, and smart. With a thorough yet accessible analysis of health science, parenting sociology, and the modern media, the authors provide a balanced, much-needed, and long-overdue voice showing mothers who don't exclusively breastfeed why they are not failures. A mix of political and practical, *Guilt Free Bottle Feeding* also offers comprehensive advice on feeding, including choosing a formula and choosing a bottle, sterilising and preparing a feed, how to promote bonding while bottle feeding, moving from breast to bottle and mixed feeding. In an era where the pressure on mums is greater than ever before, *Guilt Free Bottle Feeding* resets the conversation around infant feeding, supporting all families regardless of how they feed their babies. This is not an anti-breastfeeding book. This is an anti-guilt book. www.guiltfreebottlefeeding.com
