<Address>

Dear <Name>:

My outgoing personality, my leadership experience, and my education make me a strong candidate for an <JOB> as <job title> for <company name>.

In May of 2013, I will be graduating from San Francisco State University with a Bachelor of Science in Business Administration degree with a concentration in International Business. As I prepare for graduation I am seeking a <INSERT JOB> where I can use my demonstrated skills in marketing, administration and leadership to gain valuable experience and help your company grow and succeed.

Through my experiences and education, I have acquired the ability to establish and maintain excellent personal relationships, cope with pressure, maintain flexibility, and use good judgment. In me, you'll find someone who is dedicated, self-motivated, and who possesses the creativity and detail-oriented skills to excel in a fast-paced environment.

Equipped with innate leadership and interpersonal skills enhanced by education, and strengthened by unique experiences, I am confident that I can contribute significantly to your firm.

I will be available at the end of this month, and I'd like very much to talk with you concerning the <job title> position at <company name>. I will follow up this letter with a phone call to see if I can arrange a time to meet with you.

Thank you for your time and consideration.

Sincerely,

Robert Smith

Clinical Practice Guidelines for Midwifery & Women's Health Nell Tharpe, 2004 **Varney's Midwifery** Julia Phillippi, Ira Kantrowitz-Gordon, 2023-09-25 Varney's Midwifery continues to be the gold standard for midwifery practice in an updated seventh edition. New lead editors assembled a team of expert contributors and authors to continue the legacy of Varney's Midwifery as the trusted must-have resource for students, professional midwives, and women's health practitioners. Varney's Midwifery uses current evidence-based guidelines to address the care of women throughout the lifespan, including primary care, gynecology, maternity care in a variety of settings, and newborn care. The Seventh Edition reflects the new Core Competencies for Basic Midwifery Practice published in 2020, including care of transgender individuals and abortion-related care. It also provides updated information on chronic conditions in pregnancy, including a section discussing COVID-19, new techniques for fetal screening, diagnosis across the lifespan, and updated content on health equity. [Skills for Midwifery Practice Australian & New Zealand Edition](#) Sally-Ann De-Vitry Smith, Sara Bayes, 2022-02-28 This text provides clear, easy-to-read guidance on more than 110 skills for midwifery students and midwives seeking to update their practice. Underpinned with the most recent evidence-based practice and research, the second edition walks the reader through general and basic skills in a sequential and logical manner, following a woman's journey through pregnancy, labour, and birth, and postnatal care. With a focus on the performance of midwifery skills rather than on the theory of midwifery practice, *Skills for Midwifery Practice Australia and New Zealand* 2nd edition is an indispensable text to which students will return to again and again. Endorsed by the Australian College of Midwives, it features step-by-step instructions for each skill, images, and diagrams to aid understanding. A woman-centred approach and cultural considerations throughout, models of midwifery care, continuity of care, and the lead maternity carer's model, Australian/NZ-specific guidelines, policies, statistics, terminology, and medication administration guidelines. **2012 Accountability Hearing with the Nursing and Midwifery Council** Great Britain: Parliament: House of Commons: Health Committee, 2013-03-06 The Nursing and Midwifery Council (NMC) is a vital safeguard for care quality and patient safety, but over a number of years, the NMC has failed to understand its function and properly prioritise patient safety. The new management team in the NMC is committed to address its failings. However, there continues to be a serious gap between current performance and acceptable standards. The NMC has proposed that fitness to practise cases should be decided on average within 18 months of a complaint being received; the Committee proposes that this should be reduced to 9 months, with a maximum of 12 months. The NMC also has had a poor track record of fitness to practise decisions being challenged and overturned. The CHRE has needed to almost routinely refer NMC decisions to the High Court. It is also unacceptable that the NMC underestimated the budget for its fitness to practise directorate by 30%. The Government's intervention to limit the effect of the fee increase on registrants is welcomed. However, nurses and midwives still face a 32% fee increase at a time of public sector pay restraint. A further fee increase can not be justified, and the NMC

should consider introducing a phased payment system for registrants The language and communication skills of nurses and midwives remain a concern MPs also question why the NMC has made such slow progress on a system of revalidation Lastly many of the NMC s problems stem from inadequate IT infrastructure where two key systems cannot communicate directly and deliver incomplete or inaccurate information

Trials of Labour Brian Burtch,1994-03-18 Burtch examines the transformation of the role of the midwife particularly the international resurgence of the midwifery movement over the past twenty years He also looks at contemporary midwifery practice in Canada and the role of the state in shaping and defining that practice Burtch deals specifically with the qualifications of midwives and the care given by them both in and out of hospital and discusses their legal status the legacy of competition between nurses and midwives and the impact of legal actions concerning midwifery practice He emphasizes the pivotal role of the state in supporting midwifery and discusses the difficulties created by increasing interest in midwifery among expectant women and the social forces that inhibit the establishment of a self governing midwifery profession Today health care policy analysts throughout the country are questioning whether midwifery can offer a more holistic safe and less costly manner of supervising child birth in Canada At present midwifery has legal status in only two provinces Ontario and Alberta Government policymakers health care professionals and the women s community will find that this timely book provides critically needed information
