Is it Real? Structuring Reality by Means of Signs Zeynep Onur, İlhami Sığircı, Eero Tarasti, 2016-09-23 Is it Real is a collection of twenty eight papers on the most challenging provocative and profound topics related to the quest for real and virtual realities of vision and other senses and realities that are either constructed or imagined There was no school no theory no methodology nor any empirical approach in semiotics which was not forced to take a position whether implicitly or explicitly in attempting to discuss this issue Semiotics is a discipline dealing with signs and thus it is commonly thought that if we say of something that it is a sign then it is something less real than the thing itself to which it refers As such the field of problems which opens from the theme Is it Real is almost endless but also relevant This volume presents interactive dialogue related to this question structured under six different headings five papers on the topic of Visual Realities six on What is Real five on Textual Realities concentrating on realities revealed from literature or the written language through texts five on Constructed Realities three on Virtual Realities and finally four papers on Imagery Realities

Cognitive Approaches to English Mario Brdar, Marija Omazić, Višnja Pavičić Takač, 2009 The present volume contains a selection of papers presented at the conference Cognitive Approaches to English an international event organized to mark the 30th anniversary of English studies at the Faculty of Philosophy Josip Juraj Strossmayer University Osijek which was held in Osijek on October 18 19 2007 The participants were invited to discuss issues in cognitive accounts of English ranging from fundamental to methodological to interdisciplinary and applied The volume is accordingly divided into four parts Part I Motivation in grammar deals with various phenomena in the grammar of English in the broadest sense of the term all of which are shown to be motivated by metaphorical and or metonymic operations Part II Constructing meaning between grammar and lexicon contains five chapters dealing with phenomena ranging from various peculiarities of form meaning pairings such as synonymy polysemy and figurative meanings to concept formation The four chapters that make up Part III are concerned with the phenomenon of interlinguistic and intercultural variation in the use of metaphorical and metonymic processes The volume is concluded by Part IV the three papers of which attempt to reconsider some TEFL issues from a cognitive linguistic point of view
