Awakening to China's Rise Hugo Meijer, 2022-08-01 Awakening to China s Rise provides the most comprehensive analysis to date of how Europe s major powers have responded to the re emergence of China as a great power in world politics since the end of the Cold War To do so it puts forward a unique cross regional comparison of how the major European powers France Germany and the United Kingdom have confronted Chinese assertiveness both in the Asia Pacific and in Europe Firstly it analyses their response to China s increasingly muscular regional posture in the Asia Pacific through the development of diplomatic and security initiatives with partners in the region Secondly it delineates how they have confronted China s inroads into Europe looking at the measures that they have taken to tackle Chinese investments in and supply of technologies in strategic sectors such as critical national infrastructures dual use technologies and in the digital domain including Huawei s 5G networks A longstanding assumption in the IR literature has been that European foreign policies toward the People s Republic of China have been driven by a naive and self interested focus on the economic opportunities presented by such a vast market overlooking security considerations This book challenges such common belief through a detailed examination of the policies of France Germany and the United Kingdom from 1989 to the present Its central argument is that whereas this assessment aptly characterized the first two post Cold War decades Beijing s growing assertiveness after 2009 caused the three major European powers to awaken to China s rise In the 2010s heightened threat perceptions of China coupled with increasingly competitive bilateral economic relations with the PRC have gradually and cumulatively caused the hardening of their policy goals which in turn translated into the formulation of new policy

instruments to confront such a challenge To substantiate this argument the book relies on a large body of previously undisclosed primary sources including 223 interviews conducted with senior officials in Europe Berlin Brussels London Paris in the United States Washington DC and in Asia Beijing Shanghai New Delhi Seoul declassified archival documents from France the UK and Germany leaked US diplomatic cables and new data on European naval deployments [Asia-Pacific Regional Security Assessment 2023](#) The International Institute for Strategic Studies (IISS),2023-06-02 The Asia Pacific Regional Security Assessment examines key regional security issues relevant to the policy focused discussions of the IISS Shangri La Dialogue Asia s premier defence summit convened by the International Institute for Strategic Studies It is published and launched at the Dialogue and the issues analysed within its covers are central to discussions at the event Since February 2022 the war in Ukraine has provided a bleak backdrop for discussions about international security While the war has affected many aspects of security and defence in the Asia Pacific the region also has its own dynamics and important security related developments have occurred there since the invasion Among these China s ever growing power and increasingly assertive posture remain the leading long term challenges for the region This tenth edition of the Asia Pacific Regional Security Assessment contains an introduction and six chapters authored by IISS experts which investigate important dimensions of the regional security environment supported by maps graphs charts and tables Topics include the war in Ukraine and the Asia Pacific balance of power strained US China relations and the growing threat to Taiwan Asia Pacific naval and maritime capabilities China s Belt and Road Initiative Japanese security and defence policy and the conflict in Myanmar and the international response Authors include leading regional analysts and academics at the forefront of research and analysis James Crabtree Euan Graham Nigel Inkster Nick Childs Meia Nouwens Robert Ward Yuka Koshino Aaron Connelly and Shona Loong
