**What Is the Impact of a Certain Leadership Style on Business? A Closer Look On a Business Unit** Alexandra Vacaretiu, 2020-11-19 Bachelor Thesis from the year 2020 in the subject Leadership and Human Resources Management Styles grade 10 00 language English abstract The purpose of this thesis is to determine the impact of leadership styles on the business Specifically the paper is aimed at defining the relationship between the leadership style and a certain unit performance To this objective the first chapter introduces the reader to the leadership concept shows its importance in the daily life and its correlations with the HR field The theoretical insights into the leadership phenomena and its effects on the business are provided by the paper s state of the art Subsequently the chapter of methodology presents the objective of the research and briefly the chosen company that the study is conducted on It also defines the variables and describes the process of data collection and the participants The chosen company is NN Group Romania specifically the NN subsidiary in Brasov from which one of its units was empirically analysed The analysed leadership styles are transformational and transactional types as I consider them to be the fundamentals of the styles They serve as independent variables in the study

The SPSS software tests these variables for a potential correlation with the dependent variable which is unit performance. The data was provided by twelve participants consisting of one leader and eleven followers who answered an online survey constructed in Sosci Survey. Further the chapter of practical approach starts with the explicit description of the company. Moreover in order to generate numerical values for describing the relation between the variables a linear regression model was implemented and interpreted. This chapter ends with recommendations to the company after proving that there are two positive correlations between the leadership styles and the unit performance in the chosen unit of NN Romania. Both transformational and transactional leadership influence the unit performance and thus they have a positive impact on the business. Eventually the conclusion of this paper summarizes the most significant concepts and findings as well as offers a personal perspective on the study.
