Schuetz, 2006 Wayne Brockriede's contribution to studies of argumentation continues to influence contemporary research. *Perspectives on Argumentation* identifies the pertinent theories and contemporary applications on which students can build their own skills of reasoning and can understand the argument practices of others. Book jacket

Argumentation Theory: A Pragma-Dialectical Perspective Frans H. van Eemeren, 2018-07-27 The book offers a compact but comprehensive introductory overview of the crucial components of argumentation theory. In presenting this overview, argumentation is consistently approached from a pragma-dialectical perspective by viewing it pragmatically as a goal-directed communicative activity and dialectically as part of a regulated critical exchange aimed at resolving a difference of opinion. As a result, the book also systematically explains how the constitutive parts of the pragma-dialectical theory of argumentation, which are discussed in a number of separate publications, hang together. The following crucial topics are discussed: 1. argumentation theory as a discipline 2. the meta-theoretical principles of pragma-dialectics 3. the model of a critical discussion aimed at resolving a difference of opinion 4. fallacies as violations of a code of conduct for reasonable argumentative discourse 5. descriptive research of argumentative reality 6. analysis as theoretically motivated reconstruction 7. strategic manoeuvring aimed at combining achieving effectiveness with maintaining reasonableness 8. the conventionalization of argumentative practices 9. prototypical argumentative patterns 10. pragma-dialectics amidst other approaches. *Argumentation Theory: A Pragma-Dialectical Perspective* is clearly written and makes argumentation theory understandable to all scholars and advanced students interested in argumentation research.

Moral Issues in Global Perspective - Volume 3: Moral Issues - Second Edition Christine Koggel, 2006-03-23 Now available in three thematic volumes, the second edition of *Moral Issues in Global Perspective* is a collection of the newest and best articles on current moral issues by moral and political theorists from around the globe. Each volume seeks to challenge the standard approaches to morality and moral issues shaped by Western liberal theory and to extend the inquiry beyond the context of North America. Covering a broad range of issues and arguments, this collection includes critiques of traditional liberal accounts of rights, justice, and moral values while raising questions about the treatment of disadvantaged groups within and across societies affected by globalization. Providing new perspectives on issues such as war and terrorism, reproduction, euthanasia, censorship, and the environment, each volume of *Moral Issues in Global Perspective* incorporates work by race, class, feminist, and disability theorists. In *Moral Issues*, the third of the three volumes, issues such as euthanasia and health care, reproductive issues, pornography, and hate speech, animal rights, and environmental ethics are examined in the context of globalization and of differing social contexts and practices. Sixteen essays are new, one of which was written especially for this volume. *Moral Issues in Global Perspective* is available in three separate volumes: *Moral and Political Theory*, *Human Diversity and Equality*, and *Moral Issues*.
