Strategic Analysis of Lufthansa's Introduction of Eurowings Maxim Lachmann,2016-02-04 Seminar paper from the year 2015 in the subject Business economics Operations Research grade 1 7 language English abstract The aviation industry has changed in the recent years rapidly Twenty to thirty years ago the aviation was too expensive for the most people and a network of international air connections often did not exist Nowadays the aviation belongs almost to an everyday business whether professionally or privately At the end of the 70s there was an air traffic revolution the concept of the low cost carrier LCC started The LCC is a provider of the basic products such as low service on board seat comfort and free baggage drop off 1 The first LCC was the southwest airlines from the USA Up to the 90s Southwest offered LCC connection in US without competitors in this business area In 1990 the Irish airline Ryanair was founded and was the first LCC in the European EU area The airlines are facing new challenges more clientele more fair flight prices in comparison to the competition and in addition high margins For a long

time such scheduled airlines like LH Group KLM Air France and British Airways Iberia were the representative airlines in the EU People have spent a lot of money for having a full service on Board luggage food etc and were often dissatisfied about constantly rising prices for the flight tickets With the origin of LCC the market has changed enormously Yearly scheduled airlines announce customer decline and decreasing profits What is the reason for that Are the LCC responsible for it Do the scheduled airlines have to rethink their strategies to be still competitive in the market *Exploring Public Sector Strategy* Kevan Scholes, Gerry Johnson, 2001 The public sector in many countries remains a major part of the economy in terms of both employment and provision of services But the last 15 years it has undergone a revolution in structure performance and management thinking Exploring public sector strategy the latest book in the Exploring Corporate Strategy series explores how strategic management theory and practice is applicable to public sector organisations Tir de l'endos du livre *Market Analysis of Red Bull based on the countries Germany, Switzerland and Austria* Julia Teigeler, Ann-Katrin Hahne, 2014-05-27 Seminar paper from the year 2014 in the subject Business economics Offline Marketing and Online Marketing grade 2.0 University of Applied Sciences Essen language English abstract In this assignment named Market Analysis of Red Bull based on the countries Germany Switzerland and Austria the goal is to analyse the market of Red Bull with its competitors customers and market position Red Bull is a company and brand founded in 1987 with its slogan Red Bull gives you wings The company launched by Dietrich Mateschitz sold more than 35 billion cans until now and is available in more than 165 countries The brand is well known because of the large amount of athletes in sports and extreme sports sector they are supporting They are having their own sport events and additionally teams in such different sectors like e.g. football formula 1 or flying The biggest event they were supporting in the last years was the jump up from stratosphere of Felix Baumgartner Red Bull had also had some problems in the past not only with new out coming competitors But in some countries are legal requirements to enter the market and health concerns are producing negative publicity because they were warning customers that the drink can harm healthiness Other points which are influencing the market position are that the price is very high and the competitive prices compared are much cheaper Positive points to mention are that Red Bull helps its customers to overlap working much hours and to support them doing diet or sports more effectively Another important point is that the company is always using newest technology The disadvantage is that there are many competitors with cheaper prices and Red Bull itself has a small product portfolio only six different drinks All in all it can be said that they are the market leader with a big growth in other countries and are seen as unique by the consumers They have an attractive image and they are offering not only a drink but an experience This is what creates their unique selling proposition in a way with a clear brand personality combined with an emotional binding and a high public interest Their positioning in the market is very high levelled what is caused by the old but also modern slogan that's a high premium drink and not linked to a specific activity But to bear in mind is that it would become more difficult to hold the market leadership and justify premium pricing

as well as their production methods
