Hallucinating the End of History Eric Cunningham, 2007 This monograph explores and describes the historical continuities and relationships between 20th c Zen Buddhism the postwar psychedelic movement and postmodern eschatology In general terms and this is a rich complex study the work is a critique of modernization theory as a way of viewing history and suggests the modern epoch like the Greco Roman world before it will only end when the modern world ends Accordingly many postmodern movements seek to end modernity through violent action Germany and Japan in WW11 etc while others seek to bring to an end modern consciousness e.g the psychedelic movement which posed a major historical challenge to bourgeois morality values and modes of experiencing space and time The core of the study is a critique of the historical philosophy of Japan's greatest modern philosopher Nishida Kitaro and in particular his historical eschatology Cunningham examines the Zen based metaphysics of Nishida's thought and links this to historical resonances between the philosopher 20th c Zen Buddhism The West's leading theorist DT Suzuki was a friend of Nishida and the psychedelic New Age movement which as sought to achieve authentic experience outside of history History and Ideas Series No 2 This work is a valuable addition to research library collections that focus on Japan 20th alternative movements Zen and
