The Opposing Shore Julien Gracq:

The Opposing Shore Julien Gracq, 1986 With four elegant and beautifully crafted novels Julien Gracq has established himself as one of France's premier postwar novelists. A mysterious and retiring figure, Gracq characteristically refused the Goncourt, France's most distinguished literary prize when it was awarded to him in 1951 for this book. As the latest work in the Twentieth Century Continental Fiction Series, Gracq's masterpiece is now available for the first time in English. Set in a fictitious Mediterranean port city, *The Opposing Shore* is the first person account of a young aristocrat sent to observe the activities of a naval base. The fort lies at the country's border; at its feet is the bay of Syrtes. Across the bay is territory of the enemy who has for three hundred years been at war with the narrator's countrymen; the battle has become a complex tacit game in which no actions are taken and no peace declared. As the narrator comes to understand, everything depends upon a boundary unseen but certain separating the two sides. Besides the narrator, there are two other main characters: the dark and laconic captain of the base and a woman whose complex relations to both sides of the war brings the narrator deeper into the story's web. For many French readers, *The Opposing Shore* published as *Le rivage des Syrtes* with its theme of transgressions and boundaries spoke to the issue of defeat and the desire to fail, a particularly sensitive motif in postwar French literature. But there is nothing about the novel tying it either to France or to the 1950s; in fact, Gracq's novel with its elaborate, richly detailed prose will be of greater interest now than at any point in the last twenty years.

Marguerite Yourcenar Josyane Savigneau, 1993-10 One of the most respected writers in the French language and best known as the author of *Memoirs of Hadrian* and *The Abyss*, Yourcenar received countless literary honors and became the first woman to be elected to the Academie Francaise. An uncompromising and intimate portrait.

50 halftones Slavoj Zizek, 2015-08-18 One of our most famous, most combative philosophers explains how we can find a way out of the crisis of capitalism. There is obviously trouble in the global capitalist paradise. But why do we find it so difficult to imagine a way out of the crisis we're in? It is as if the trouble feeds on itself; the march of capitalism has become inexorable, the only game in town. Setting out to diagnose the condition of global capitalism, the ideological constraints we are faced with in our daily lives, and the bleak future promised by this system, Slavoj Zizek explores the possibilities and the traps of new emancipatory struggles. Drawing insights from phenomena as diverse as Gangnam Style to Marx, *The Dark Knight* to Thatcher, *Trouble in Paradise* is an incisive dissection of the world we inhabit and the new order to come. Few thinkers illustrate the contradictions of contemporary capitalism better than Slavoj Zizek.

The Facts on File Companion to the French Novel Karen L. Taylor, 2006 French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses. This work provides coverage of the French novel since its origins in the 16th century, with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization.

Fantasy Adam Roberts, 2025-04-24 One of the

most popular genres of modern times fantasy literature has as rich a cultural and literary heritage as the magical worlds that so enrapture its readers In this book a concise history of the genre Adam Roberts traces the central forms and influences on fantasy through the centuries to arrive at our understanding of the fantastic today Pinning the evolution of fantasy on three key moments the 19th century resurgence of interest in Arthurian legend the rise of Christian allegory and a post Ossian post Grimm emergence of a Norse Germanic and Old English mythic identity Roberts explores how the logic of the fantastical feeds through into the sets and trappings of modern fantasy Tracking the creation of heroic and high fantasy subgenres through antiquarian tradition through C S Lewis and J R R Tolkien and into the post Tolkien boom in genre fantasy writing the book brings the manifestation of the fantastic beyond literature into art music film and TV video games and other cultural productions such as fandoms From Tennyson and Wagner through Robert Graves David Jones Samuel Delany Dungeons and Dragons Terry Pratchett and Robin Hobb to the Game of Thrones Skyrim The Witcher and The Lord of the Rings media franchises the book digs into the global dissemination and diversity of 21st century fantasy Accessible and dynamic wide ranging but comprehensive this is a crash course in context for the most imaginative form of storytelling *Reading Writing*

Julien Gracq, 2006 Every reader is a potential writer and every writer is a reader in actuality *Reading Writing* is a subjective history of fiction and poetry and a personal meditation on the links between literature and two visual arts painting and cinema Gracq's poetics is founded upon the basic acts of reading and writing and on the relationship between the writer and his language This first English language edition of *En lisant en crivant* will mark a turning point in the public reception of Julien Gracq **The Allegorical Impulse in the Works of Julien Gracq** Carol J. Murphy, 1995 This text focuses on the role of history in Julien Gracq's novels *Le Rivage Des Syrtes* and *Un Balcon En Foret* and in his critical essays It draws on theories of allegory textuality and history in its analysis of the interplay of fictional and factual history in Gracq's writings

Absolute Recoil Slavoj Žižek, 2015-10-06 A contemporary philosophical masterwork from one of the world's best known public intellectuals *New York Review of Books* Philosophical materialism in all its forms from scientific naturalism to Deleuzian New Materialism has failed to meet the key theoretical and political challenges of the modern world This is the burden of philosopher Slavoj Žižek's argument in this pathbreaking and eclectic new work Recent history has seen developments such as quantum physics and Freudian psychoanalysis not to speak of the failure of twentieth century communism shake our understanding of existence In the process the dominant tradition in Western philosophy lost its moorings To bring materialism up to date Žižek himself a committed materialist and communist proposes a radical revision of our intellectual heritage He argues that dialectical materialism is the only true philosophical inheritor of what Hegel designated the speculative approach in thought *Absolute Recoil* is a startling reformulation of the basis and possibilities of contemporary philosophy While focusing on how to overcome the transcendental approach without regressing to naive pre-Kantian realism Žižek offers a series of excursions into today's political artistic and ideological landscape from Arnold
