**Writing, Authorship and Photography in British Literary Culture, 1880 - 1920** Emily Ennis, 2022-03-24 At the turn of the 20th century printing and photographic technologies evolved rapidly leading to the birth of mass media and the rise of the amateur photographer Demonstrating how this development happened symbiotically with great changes in the shape of British literature Writing Authorship and Photography in British Literary Culture 1880 1920 explores this co evolution showing that as both writing and photography became tools of mass dissemination literary writers were forced to re evaluate their professional and personal identities Focusing on four key authors Thomas Hardy Bram Stoker Joseph Conrad and Virginia Woolf each of which had their own private and professional connections to photographs this book offers valuable historical contexts for contemporary cultural developments and anxieties At first establishing the authors response to developing technologies through their non fiction personal correspondences and working drafts Ennis moves on to examine how their perceptions of photography extend into their major works of fiction A Laodicean Dracula The Secret Agent The Inheritors and The Voyage Out Reflecting on the first graphic revolution in a world where text and image are now reproduced digitally and circulated en masse and online Ennis redirects our attention to when image and text appeared alongside each other for the first time and the crises this sparked for authors how they would respond to increasingly photographic depictions of everyday life and in turn how their writing adapted to a distinctly visual mass media

*Trial Films on Trial* Austin Sarat, Jessica Silbey, Martha Merrill Umphrey, 2019-04-02 A collection of wide ranging critical essays that examine how the judicial system is represented on screen Historically the emergence of the trial film genre coincided with the development of motion pictures In fact one of the very first feature length films Falsely Accused released in 1908 was a courtroom drama Since then this niche genre has produced such critically acclaimed films as Twelve Angry Men To Kill a Mockingbird and Anatomy of a Murder The popularity and success of these films can be attributed to the fundamental similarities of filmic narratives and trial proceedings Both seek to construct a reality through storytelling and representation and in so doing persuade the audience or jury to believe what they see Trial Films on Trial Law Justice and Popular Culture is the first book to focus exclusively on the special significance of trial films for both film and legal studies The contributors to this volume offer a contemporary approach to the trial film genre Despite the fact that the medium of film is one of the most pervasive means by which many citizens receive come to know the justice system these trial films are rarely analyzed and critiqued The chapters cover a variety of topics such as how and why film audiences adopt the role of the jury the narrative and visual conventions employed by directors and the ways mid to late twentieth century trial films offered insights into the events of that period

*Writing and the Vietnam War in West Germany* Mererid Puw Davies, 2023-05-30 In the 1960s and 1970s in the Federal Republic of Germany FRG or West Germany newspaper readers and television viewers were appalled by terrible images of fires burning half a world away The Vietnam War was a decisive catalyst for the era's wider protest movements and gave rise to an ardent anti-war discourse This discourse privileged writing in many forms Within it poetry and poetic writing were key and because coverage of the conflict in Vietnam often focused on spectacular destructive conflagrations ignited by hi-tech machines of war their dominant trope was fire Hundreds of poems and related writings about Vietnam circulated in the FRG yet they are almost entirely forgotten today Poetic Writing and the Vietnam War in West Germany uncovers and explores some of this rich production in order to present a new history of engaged poetic writing in the FRG in the 1960s and 1970s and to draw out distinctive characteristics of wider protest culture In doing so it makes the case for attending to marginal non-canonical or neglected literary and cultural forms and for critical thinking about why they might over time have been obscured This book offers too a case study for reflection on the representation of war on ways in which German oppositional culture could imagine its others and the ways in which other voices could speak to it in turn and on the relationship of poetry to the historical world
