Think With Socrates Paul Herrick Oxford University Press:

Think with Socrates Paul Herrick, 2015 Brief yet comprehensive *Think with Socrates* An Introduction to Critical Thinking uses the methods ideas and life of Socrates as a model for critical thinking It offers a more philosophical historical and accessible introduction than longer textbooks while still addressing all of the key topics in logic and argumentation Applying critical thinking to the Internet mass media advertising personal experience expert authority the evaluation of sources writing argumentative essays and forming a worldview *Think with Socrates* resonates with today's students and teaches them how to apply critical thinking in the real world At the same time it covers the ancient intellectual roots and history of the field placing critical thinking in its larger context to help students appreciate its perennial value Author Paul Herrick incorporates original sources from newspapers a variety of media and philosophical writing along with engaging interludes featuring selections from Plato's dialogues A Companion Website at www.oup.com/us/herrick offers resources for students and instructors

Philosophy, Reasoned Belief, and Faith Paul Herrick, 2022-06-01 This clear readable introduction to philosophy presents a traditional theistic view of the existence of God There are many fine introductions to philosophy but few are written for students of faith by a teacher who is sensitive to the intellectual challenges they face studying in an environment that is often hostile to religious belief Many introductory texts present short easy to refute synopses of the traditional arguments for God's existence the soul free will and objective moral value rooted in God's nature usually followed by strong objections stated as if they are the last word This formula may make philosophy easier to digest but it gives many students the impression that there are no longer any good reasons to accept the beliefs just mentioned *Philosophy Reasoned Belief and Faith* is written for philosophy instructors who want their students to take a deeper look at the classic theistic arguments and who believe that many traditional views can be rigorously defended against the strongest objections The book is divided into four sections focusing on philosophy of religion an introduction to epistemology philosophy of the human person and philosophical ethics The text challenges naturalism the predominant outlook in the academic world today while postmodernist relativism and skepticism are also examined and rejected Students of faith and students without faith will deepen their worldviews by thoughtfully examining the philosophical arguments that are presented in this book *Philosophy Reasoned Belief and Faith* will appeal to Christian teachers analytic theists home educators and general readers interested in the classic arguments supporting a theistic worldview

Scott Adams and Philosophy Daniel Yim, Galen Foresman, Robert Arp, 2018-08-21 As cartoonist author public speaker blogger and periscoper Scott Adams has had best sellers in several different fields his Dilbert cartoons his meditations on the philosophy of Dilbert his works on how to achieve success in business and all other areas of life his two remarkable books on religion and now his controversial work on political persuasion Adams's two most recent best sellers are *How to Fail at Almost Everything and Still Win Big* Kind of the Story of My Life 2014 and *Win Bigly Persuasion in a World Where Facts Don't Matter* 2017 Adams predicted Donald Trump's election

victory on August 13th 2016 and has explained then and more recently how Trump operates as a Master Persuader using weapons grade persuasive techniques to defeat his opponents and often to stay several moves ahead of them Adams has provocative ideas in many areas for example his outrageous claim that 30 percent of the population have absolutely no sense of humor and take their cue from conventional opinion in deciding whether something is a joke since they have no way of deciding this for themselves In Scott Adams and Philosophy an elite cadre of people who think for a living put Scott Adams s ideas under scrutiny Every aspect of Adams s fascinating and infuriating system of ideas is explained and tested Among the key topics Does humor inform us about reality Do religious extremists know something the rest of us don t What are facts and how can they not matter What happens when confirmation bias meets cognitive dissonance How can we tell whether President Trump is a genius or just dumb lucky Does the Dilbert philosophy discourage the struggle for better workplace conditions How sound is Adams s claim that systems thinking beats goal directed thinking Does Dilbert exhibit a Nietzschean or a Kierkegaardian sense of life Or is it Sisyphean in Camus s sense Can truth be over rated The political side that is out of power is the side that hallucinates the most If there s a serious chance we re living in a Matrix type simulation how should we change our behavior Are most public policy issues just too complex and technical for most people to have an opinion about In politics says Adams it s as if different people watch the same movie at the same time some thinking it s a romantic comedy and others thinking it s a horror picture How is that possible Does logic play any part in persuasion Critical theory and international relations Stephen Hobden,2023-02-28 Critical theory is one of the most important and exciting areas within the study of international relations Its purpose is not only to describe how the world operates but also to help us imagine how we might achieve a more equitable and sustainable way of life Presenting key concepts and thinkers notably Theodor Adorno and Michel Foucault this book provides an evaluation of the field and suggests how critical thinking can contribute to confronting the challenges of the twenty first century It argues that current critiques of critical theory in international relations can only be overcome if we engage with ideas from outside of the western tradition **Christian Apologetics and Philosophy** Paul Herrick,2024-10-01 A highly readable introduction to Christian apologetics that joins contemporary analytic philosophy with modern biblical scholarship In this book Paul Herrick presents the basics of classical Christian apologetics in the form of an inference to the best explanation argument that builds from the book s first chapter to its last Drawing on contemporary philosophy logic and biblical scholarship Herrick incorporates thoughts from Socrates Plato Thomas Aquinas and C S Lewis as well as scholars such as William Lane Craig J P Moreland Richard Swinburne and Craig Blomberg to present a multifaceted argument for the Christian faith With sections on the Socratic method the Christian examination of conscience the Big Bang miracles the historical reliability of the New Testament the resurrection of Christ and more this book promises to be useful intellectually and spiritually for seekers doubters and those already in the faith PENSAR COMO SOCRATES: Herramientas para aprender a pensar José Cantero,2018-05-30 El activo m s valorable que poseemos los

seres humanos es nuestra mente La calidad de nuestras vidas y la de quienes nos rodean siempre ser reflejo de c mo utilizamos desarrollamos y orientamos tan precioso obsequio con el que todos vinimos al mundo Pensar como Socrates nos plantea un gran desafio orientarnos hacia el potencial y hasta la frontera de la riqueza de nuestras mentes Para ello el libro se estructura en seis secciones como si fuesen Apps todas ellas conteniendo herramientas muy simples para perfeccionar nuestra forma de pensar Estas Apps pretenden convertirte en una persona con mayor capacidad racional integra e integral con habilidades para pensar con justicia perseverancia significancia valent a serenidad de pensar con met foras de razonar con filtros de claridad de indagar con contraejemplos de examinar de abajo a arriba de orientar tu capacidad racional hacia su potencial de excelencia Ser a fant stico Est s preparado *The New York Times Book Review* ,1938 *Cumulated Index to the Books* ,1938 **American Book Publishing Record** ,1995 **New York Herald Tribune Books** ,1932

Socrates: A Very Short Introduction Christopher Taylor,2000-10-12 Socrates has a unique position in the history of philosophy It is no exaggeration to say that had it not been for his influence on Plato the whole development of Western philosophy might have bee unimaginably different Yet Socrates wrote nothing himself and our knowledge of him is derived primarily from the engaging and infuriating figure who appears in Plato s dialogues In this book Christopher Taylor explores the relationship between the historical Socrates and the Platonic character and examines the enduring image of Socrates as the ideal exemplar of the philosophic life a thinker whose moral and intellectual integrity permeated every detail of his life even in the face of betrayal and execution by his fellow Athenians ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Socrates: A Very Short Introduction* W. C. W. Taylor,2019-08-22 Socrates has a unique position in the history of philosophy it is no exaggeration to say that had it not been for his influence on Plato the whole development of Western philosophy might have been unimaginably different Yet Socrates wrote nothing himself and our knowledge of him is derived primarily from the engaging and infuriating figure who appears in Plato s dialogues In this Very Short Introduction Christopher Taylor explores the life of Socrates and his philosophical activity before looking to the responses his philosophical doctrines have evoked in the centuries since his betrayal and execution at fellow Athenian hands Examining the relationship between the historical Socrates and the Platonic character Taylor considers the complex question of how far it is possible to distinguish the philosopher s own thought from that of those others who wrote about him and explores the enduring image of Socrates as the ideal exemplar of the philosophic life a thinker whose moral and intellectual integrity permeated every detail of his life This new edition also includes a new chapter analysing the reception and influence of Socrates in 19th and 20th century philosophical thought ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These

pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Plato's Socrates** Thomas C. Brickhouse, Nicholas D. Smith, 1994 Socrates as he is portrayed in Plato's early dialogues remains one of the most controversial figures in the history of philosophy This book concerns six of the most vexing and often discussed features of Plato's portrayal Socrates methodology epistemology psychology ethics politics and religion Brickhouse and Smith cast new light on Plato's early dialogues by providing novel analyses of many of the doctrines and practices for which Socrates is best known Included are discussions of Socrates moral method his profession of ignorance his denial of akrasia as well as his views about the relationship between virtue and happiness the authority of the State and the epistemic status of his daimonion By revealing the many interconnections among Socrates views on a wide variety of topics this book demonstrates both the richness and the remarkable coherence of the philosophy of Plato's Socrates **Socrates' Children** Trudy Govier, 1997-08-06 How do Humans Think How should we think Almost all of philosophy and a great deal else depends in large part on the answers that we provide to such questions Yet they are almost impossible to deal with in isolation notions about nature of thought are almost bound to connect with metaphysical notions about where ideas come from with notions about appropriate arenas for certainty doubt and belief and hence with moral and religious ideas The Western tradition of thinking about thinking takes shape with Socrates among the other important strands covered in this book are Descartes recipe for discovering truth through systematic doubt Hume's notion that all our ideas are copies of sense impressions Wollstonecraft's introduction of the perspective of gender into such questions and Wittgenstein's claim that much of the traditional terrain of Western philosophy should be thought of as the proper domain only of linguistic assertion possessing no content beyond the words With each philosopher and school of thought dealt with Govier shows how ideas about thinking connect to the other elements of the particular philosophy and brings to life the social and intellectual context that the ideas spring from **Socrates Children** is thus not only an investigation of notions of thinking and knowing in Western culture it is a selective general history of much of Western philosophy from a unique and fascinating perspective **Socrates, the Man and His Teaching** Socrates, Plato, Frederick John CHURCH, R. J. MASON, H. WAKEFIELD, 1955 **Defence of Socrates, Euthyphro, Crito** Plato, 1997-03-20 These new translations present Plato's remarkable dramatization of the momentous events surrounding the trial of Socrates in 399 BC on charges of irreligion and corrupting the young The Euthyphro Defence of Socrates and Crito form a dramatic and thematic sequence raising fundamental questions about the basis of moral religious legal and political obligation Plato explores these issues with a freshness and directness that have never been surpassed In the Defence of Socrates Plato seeks not only to clear his master's name but also to defend the whole Socratic way of life and therefore philosophy itself The result is an oratorical masterpiece The Euthyphro an inquiry into the nature of piety probes the relationship between religion and morality The Crito discusses the citizen's obligation to the state in the

context of a life or death issue confronting Socrates himself whether or not to escape from prison David Gallop's Introduction provides a stimulating philosophical and historical analysis of these texts complemented by useful explanatory notes and an index of names to make this edition invaluable to readers new to these timeless classics ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

Socrates: Philosophy in an Hour Paul Strathern, 2012-05-17 Philosophy for busy people Read a succinct account of the philosophy of Socrates in just one hour

The Thinker's Guide to Socratic Questioning Richard Paul, Linda Elder, 2019-06-01 The Thinker's Guide to the Art of Socratic Questioning introduces readers to powerful methods of inquiry that pinpoint underlying beliefs and systems of logic Bringing together the principles of critical thinking Richard Paul and Linda Elder illuminate the practicality and accessibility of Socratic questioning for revealing and solving problems in thought Teachers students and professionals will find in this book essential questioning strategies for reasoning within any field of study or endeavor As part of the Thinker's Guide Library this book advances the mission of the Foundation for Critical Thinking to promote fairminded critical societies through cultivating essential intellectual abilities and virtues across every field of study across world

Socratic Wisdom : The Model of Knowledge in Plato's Early Dialogues Hugh H. Benson Professor of Philosophy University of Oklahoma, 2000-01-05 While the early Platonic dialogues have often been explored and appreciated for their ethical content this is the first book devoted solely to the epistemology of Plato's early dialogues Author Hugh H Benson argues that the characteristic features of these dialogues Socrates method of questions and answers elenchos his fascination with definition his professions of ignorance and his thesis that virtue is knowledge are decidedly epistemological In this thoughtful study Benson uncovers the model of knowledge that underlies these distinctively Socratic views What emerges is unfamiliar yet closer to a contemporary conception of scientific understanding than ordinary knowledge

Socrates, Pleasure, and Value George Rudebusch, 1999 In the past quarter century enormous philosophical attention has been paid to Plato's Socratic dialogues as interpreters have sought to identify which dialogues are truly Socratic and interpret and defend the moral theories they find in those works In spite of this intellectual energy no consensus has emerged on the question of whether Socrates was a hedonist whether he believed pleasure to be the good In this study George Rudebusch addresses this question and the textual puzzle from which it has arisen In the Protagoras Plato has Socrates appeal to hedonism in order to assert his characteristic identification of virtue and knowledge While in the Gorgias Socrates attributes hedonism to his opponent and argues against it in defense of his own view that doing injustice is worse than suffering it From the Apology and Crito it is clear that Socrates believes virtue to be the supreme good Taken together scholars have found these texts to be incoherent and seek to account for them either in terms of the development of Plato's

thinking or by denying that one or more of these texts was meant to reflect Socrates own ethical theory Rudebusch argues instead that these texts do indeed fit together into a coherent moral theory as he attempts to locate Socrates position on hedonism He distinguishes Socrates own hedonism from that which Socrates attacks elsewhere Rudebusch also maintains that Socrates identifies pleasant activity with virtuous activity describing Socrates hedonism as one of activity not sensation This analysis allows for Socrates to find both virtue and pleasure to be the good thus solving the textual puzzle and showing the power of Socratic argument in leading human beings toward the good Tackling some of the most fundamental debates over Socratic ethics in Plato s earlier dialogues Socrates Pleasure and Value will generate renewed discussion among specialists and provide excellent reading for courses in ancient philosophy as well as ethical theory
