*Deep Eutectic Solvents* Mohammad Jawaid, Indra Bahadur, Prashant Singh, Jamal Akhter Siddique, 2024-11-22 *Deep Eutectic Solvents* highlights well established research and technology on applications of DESs in corrosion sciences protein chemistry and organic synthesis as well as separation science This book provides state of the art research that will revolutionize modern practices Neoteric solvents have been proposed as a better substitute to these harmful organic solvents and scientists have come up with various neoteric solvents in the last few years like Deep Eutectic solvents DESs DESs are defined as a system formed from a eutectic mixture of Lewis or Br nsted acids and bases with various ionic species whereas ionic liquids ILs consist of a discrete anion and a cation DESs stand out as a greener and cheaper neoteric solvent as compared to ILs DESs are denser than water and fairly polar thus can be utilized as non aqueous substitute to water in many separation processes DESs have very high distribution coefficient of solutes and even dissolves gases and metal oxides selectively They also readily dissolve organic macromolecules thereby becoming useful in pharmacological applications Includes the latest updates application of DESs from synthesis to applications Provides in depth and step by step description of knowledge on synthesis characterization investigation through computational tools and applications in different fields Presents chronological advancements for using industrial scale corrosion inhibitors in modern industrial platforms

**Proceedings of the Indian Science Congress** Indian Science Congress Association, 1985 *Contamination of Water* Arif Ahamad, Sharf Elahi Siddiqui, Pardeep Singh, 2021-08-06 Water containing significant amounts of inorganic and organic contaminants can have serious environmental consequences and serious health implications when ingested Contamination of Water Health Risk Assessment and Treatment Strategies takes an interconnected look at the various pollutants the source of contamination the effects of contamination on aquatic ecosystems and human health and what the potential mitigation strategies are This book is organized into three sections The first section examines the sources of potential contamination This includes considering the current scenario of heavy metal and pesticide contamination in water as well as the regions impacted due to industrialization mining or urbanization The second section goes on to discuss water contamination and health risks caused by toxic elements radiological contaminants microplastics and nanoparticles and pharmaceutical and personal care products This book concludes with a section exploring efficient low cost treatment technologies and remediation strategies that remove toxic pollutants from water Contamination of Water incorporates both theoretical and practical information that will be useful for researchers professors graduate students and professionals working on water contamination environmental and health impacts and the management and treatment of water resources Provides practical case studies of various types and sources of contamination Discusses inorganic and organic contaminants and their impact on human health Evaluates effective water treatment and remediation technologies to remove toxins from water and minimize risk Graduate Programs in the Physical Sciences and Mathematics ,1987 Indian Books in Print ,2003 College
