Emerging Technologies and Business Development in the Tropics Nurhafihz Noor,Tan Kim Lim,Haejin Jang,Jacob Wood,K. Thirumaran,2026-03-06 It has been reported that those who live in the Tropics find themselves on the wrong side of the digital divide and lack access to basic technological infrastructure including internet connectivity However a closer look at the state of digital and technology innovation in this region reveals a more fragmented picture Against a backdrop of needing to grow businesses and seek new opportunities to unleash the potential of the Tropics the existing tensions and opportunities that technology brings to this region and the evolutionary change in business proposition and value chain there is much to still be done to better understand these issues

With a Tropical region focus this book explores the extent to which emerging technologies impact business development at nation specific and regional levels It unravels the diverse factors and practices that emerge through technological innovation and its role in driving business development in the Tropics The topics covered in the book include diffusing innovations in the Tropics designing digital customer touchpoints in the Tropics synergizing operations and connectivity in the Tropics and securing the future of Smart Tropics Targeted primarily at academics business practitioners and public policy experts operating in the product and service economies this book provides theoretical and practical insights for anyone interested in the role that emerging technologies may play in business development in the Tropics The Doctorate Blueprint Alessio

Malizia,2025-08-05 The doctorate process can seem complicated and daunting in a young academic s career Whether you are starting your doctoral studies or planning your next steps this guide offers clear actionable advice for success in academia and beyond The Doctorate Blueprint is a practical guide designed to help graduates and young academics in science and engineering navigate the complex journey of earning a PhD The guide takes a comprehensive view of the doctorate process and covers all aspects from understanding research and choosing the right methods to writing a dissertation and getting published The book also provides essential tools and advice on career planning including how to write grant proposals and run a research lab It serves as an essential companion for those beginning their doctoral journey offering a clear roadmap from initial research to career planning beyond the PhD with a focus on PhD candidates and advice for early career academics with little to no experience supervising students **The Transfer of Knowledge through Art and**

Visualization Anna Ursyn,2023-12-06 This book offers strategies for the transfer of knowledge through combining information technology and visual arts and examining how to visually enhance and convey knowledge Specifically it presents a fresh look at how technology based science inspired projects can be innovatively delivery through artistic methods It explores a selection of inventions gained through the collaboration of internationalist professionals in various fields of knowledge before outlining a new approach in how knowledge can be delivered using the inventions in a novel visual way through action based visual storytelling video graphical display and visualization Crucially it looks at how current media and techniques used for presenting topics in industries corporations commerce and marketing companies could be successfully translated and developed as a presentation skill in the school college or university environment It thus seeks to address the skills that prospective employers expect from students in terms of possessing the ability to create visual presentations of data solutions and products With a sharp focus on the current generation schools academies business and marketing companies and catering to the modern demand for novelty in presentation it makes a strong contribution to the conversation around professional collaboration visual communication knowledge transfer novel technologies and knowledge visualization **The Communicator's Guide to Media Law and Ethics** Mark Pearson,2023-11-23 This book offers an introduction to the key legal and ethical topics confronting Australian journalists and strategic communicators both at home and internationally and

offers a suite of reflective techniques for navigating them It starts by positioning morals ethics and the law in their historical and philosophical frameworks by tracing the evolution of free expression and professional media ethics Media law and ethics are then contextualized in their modern international human rights framework Readers are equipped with a skill set for reflecting on the law and ethics of professional media dilemmas including mindful reflection the Potter Box journaling concept mapping and discussion Such approaches are then applied to key topic areas including free expression reputation confidentiality privacy justice intellectual property national security discrimination and harassment and conflicted interests Each is examined in terms of its philosophical underpinnings relationship to human rights professional ethical context international examples legal principles key Australian laws legal cases and strategies for applying reflective practice techniques It concludes on a confident note imploring communicators to engage in constructive and mindful strategic communication with the authority and confidence that results from a working knowledge of media law and ethics This handbook is for professional communicators and students in all fields but particularly in journalism public relations corporate communication media relations and marketing
