Is Not Enough Naomi Klein, 2017-06-13 The New York Times bestselling roadmap to resistance in the Trump era from the internationally acclaimed activist and author of *On Fire* and *The Battle for Paradise* The election of Donald Trump is a dangerous escalation in a world of cascading crises Trump's vision a radical deregulation of the US economy in the interest of corporations an all out war on radical Islamic terrorism and a sweeping aside of climate science to unleash a domestic fossil fuel frenzy will generate wave after wave of crises and shocks to the economy to national security to the environment In *No Is Not Enough* Naomi Klein explains that Trump extreme as he is is not an aberration but a logical extension of the worst and most dangerous trends of the past half century In exposing the malignant forces behind Trump's rise she puts forward a bold vision for a mass movement to counter rising militarism nationalism and corporatism in the United States and around the world Longlisted for the National Book Award I hope that Klein's book is read by more than just her mostly leftwing fan base For whatever you think about her economic arguments she makes a powerful and an important point that you cannot understand Trump without looking at how he reflects bigger cultural and social dynamics And what is perhaps refreshing about *No Is Not Enough* is that Klein tries to move beyond mere outrage and hand wringing to offer a practical manifesto for opposition Financial Times Brims with ideas rarely heard in the mainstream media And her fiery punchy writing style which is occasionally laced with humor makes it hard to put down The Georgia Straight [In the Shadow of the Great House](#) Daniel Rood, 2026-03-17 An important and revelatory work that brings economic history to life with narrative and nuance Kirkus Reviews starred From an acclaimed historian a new history of American slavery and American capitalism told through the setting where both developed Over the last few decades and especially in the last ten years our understanding of slavery has been transformed by the work of many talented scholars We have learned a great deal about the actions of enslavers the struggles and victories of the enslaved and how the afterlives of American slavery persist into the present Yet Dan Rood's *In the Shadow of the Great House* is one of the first contemporary books to focus on the primary engine of slavery race and capitalism in this country the plantation The plantation was invented on the small Atlantic island of St. Thomas in the 1500s and the island also became the site soon enough of the first slave revolt The brutal technology was then perfected in Barbados where planters worked tens of thousands of African captives to their deaths in sugar factories But it was in the United States Rood shows that the plantation found its most powerful manifestations In Virginia Carolina and then the Deep South successive plantation revolutions transformed slavery into a much more rigid and oppressive institution While prejudice certainly preceded the plantation incomparably wealthy planters now insisted on a rightless eternally available increasing source of labor and in the process reinvented human bondage and stamped it onto a single race In a narrative that sweeps across four hundred years of American history Rood reveals that the plantation did not die after the Civil War It metastasized From the advent of sharecropping in the late nineteenth century to the rise of cotton in mid twentieth century California to today's chicken processing plants which sit on the same land once occupied by plantations and are staffed largely by migrant

workers the plantation has cast a long shadow over American life Even as he describes how the always evolving plantation spread across much of the landscape devouring people and nature in equal measure Rood documents the dark retreats carved out of plantation life by the enslaved It was the enslaved those caught up in the plantation s treadmill those who were thrown violently into the gears of its machinery who offered the most clear eyed understanding of how it worked and what these behemoths told us and still tell us about our country **Encounter** ,2008 **New Left Review** ,2007 The New York Times Index ,2007 **Environment and Planning** ,2008 International interdisciplinary journal discussing the relations between Society and Space Space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact Covers both practical politics and the abstractions of social theory **Radical Philosophy** ,2008 Theory and Methods in Political Science David Marsh,Gerry Stoker,2010-02-03 The systematically revised third edition of the leading text on approaches and methods in political science features a considerable internationalization in both the team of contributors and the range of coverage and examples About half the chapters are entirely new and the rest are substantially revised and updated **Blueprint** ,2007 Kentucky Law Journal ,2012 **High-Stakes Testing and the Decline of Teaching and Learning** David Hursh,2008-01-28 This book examines the changes in educational policy in the U S and Britain over the last twenty five years Hursh argues that education in the States and Britain has been radically transformed first through efforts to create curricular standards more recently through an emphasis on accountability measured by standardized tests and currently efforts to introduce market competition and private services into educational systems Hursh offers an alternative to the neoliberal conception of society and education complete with examples of parents who reject the current emphasis on individual success and schools that promote civic mindedness
