[Aristotelian Subjectivism: Francisco Suárez's Philosophy of Perception](#) Daniel Heider, 2021-07-20 This monograph presents new material on Francisco Suarez s comprehensive theory of sense perception The core theme is perceptual intentionality in Suarez s theory of the senses external and internal as presented in his *Commentaria una cum quaestionibus in libros Aristotelis De anima* published in 1621 The author targets the question of the multistage genesis of perceptual acts by considering the ontological items involved in the procession of sensory information However the structural issue is not left aside and the nature of the relationship due to which our perceptions are mental representations of this or that object is also considered The heuristic historiographical background includes not only the theories of classical authors such as Aristotle and Aquinas but also those of late medieval authors of the fourteenth century These are headed by John Duns Scotus John of Jandun Peter Auriol and Peter John Olivi Readers will discover the differences between Suarez s and Aquinas s views as well as other sources that may have served as positive inspiration for the Jesuit s theory By considering the late medieval philosophy of the fourteenth century this book helps to a certain extent to fill a gap in the historiography of philosophy regarding the link between late medieval and early modern scholasticism In the first part of the book the metaphysics of the soul and powers is considered Chapters on the external senses follow covering topics such as the sensible species the causes of sensation self awareness and the ordering of the external senses A further chapter is devoted to the internal senses and the author argues that by reducing the number and functional scope of the interior senses Suarez deepens the gap between the external senses and the intellect but he reduces it through emphasizing the unifying efficacy of the soul This book brings a synthetic and unifying perspective to contemporary research and will particularly appeal to graduate students and researchers in theology and philosophy especially philosophy of mind

**Collected Studies on Francisco Suárez, S.J. (1548-1617)** John P. Doyle, 2010 Although the Jesuit Francisco Suarez 1548 1617 is one of the most important figures of late scholasticism his work has not received the attention it deserves in English speaking scholarly literature One exception to this generalization is found in the work of the American scholar John P Doyle whose ground breaking studies of several important areas of Suarez s complex but highly original system of thought have helped to make the Jesuit s ideas accessible to several generations of historians of philosophy This volume gathers together Doyle s

most important articles on the philosophical theology metaphysics ethics and legal philosophy of Suarez and is prefaced by an introductory chapter that places the Jesuit's life and thought in context

[A Companion to Francisco Suárez](#), 2014-11-06 A Companion to Francisco Suárez examines the thought of scholasticism's Doctor eximius in its entirety both philosophically and theologically Many of the most distinctive features of Suárez's thought are identified and evaluated in light of his immediate historical context What emerges from the studies contained in this volume is the picture of a thinker who is profoundly steeped in the riches of divergent schools of thought and yet who manages to find his own unique voice to add to the chorus of scholasticism

**Suárez** José Pereira, 2007 Francisco Suarez 1546-1617 is one of the great anomalies in the history of thought one thinker functioning in two contrary roles each reversing the other The role of being on the one hand the consummator of one phase of philosophical speculation the realist and scholastic and on the other the initiator though an unwitting one of another phase the idealist modern and nihilist This shift from realism to idealism was crucial in Western philosophy it inaugurated an era of irrepressible if chaotic creativity

*Francisco Suárez (1548-1617)* Robert Aleksander Maryks, Juan Antonio Senent de Frutos, 2019-04-02. This is a bilingual edition of the selected peer-reviewed papers that were submitted for the International Symposium on Jesuit Studies on the thought of the Jesuit Francisco Suárez 1548-1617. The symposium was co-organized in Seville in 2018 by the Departamento de Humanidades y Filosofía at Universidad Loyola Andalucía and the Institute for Advanced Jesuit Studies at Boston College. Suárez was a theologian, philosopher, and jurist who had a significant cultural impact on the development of modernity. Commemorating the four hundredth anniversary of his death, the symposium studied the work of Suárez and other Jesuits of his time in the context of diverse traditions that came together in Europe between the late Middle Ages, the Renaissance, and early modernity.

**Selections from three works of Francisco Suarez** Francisco Suárez, 1944. **Suárez's Metaphysics in Its Historical and Systematic Context** Lukáš Novák, 2014-08-29. Although the importance of Francisco Suárez has been for some time already generally recognized even outside the circles of historians of scholasticism, the wider context of his thought, i.e. the rich and diverse Renaissance and Baroque scholasticism, remains largely unexplored. This book is an attempt to contribute to the quest of putting Suárez's metaphysics, a mere fragment of the whole of his intellectual legacy, into context, historical and systematic. Being the fruit of an international conference held in Prague in October 2008, it puts together a systematically ordered selection of papers devoted to general and specific topics of Suárezian metaphysics with special respect to its sources and further impact. Part One explores in the first place the notion of being and the nature of metaphysics in general. Part Two then deals with more specific metaphysical topics such as the problem of universals, causality, relations, and God. The book will be of value not just to Suárez scholars but to anyone interested in the history of ideas in general and in the intricacies of metaphysical thought at the verge of modernity in particular.
