The Philosophy Of Poverty:

The Philosophy of Poverty Pierre-Joseph Proudhon, 2011-05 I AFFIRM the REALITY of an economic science This proposition which few economists now dare to question is the boldest perhaps that a philosopher ever maintained and the inquiries to follow will prove I hope that its demonstration will one day be deemed the greatest effort of the human mind I affirm on the other hand the absolute certainty as well as the progressive nature of economic science of all the sciences in my opinion the most comprehensive the purest the best supported by facts a new proposition which alters this science into logic or metaphysics in concreto and radically changes the basis of ancient philosophy In other words economic science is to me the objective form and realization of metaphysics it is metaphysics in action metaphysics projected on the vanishing plane of time and whoever studies the laws of labor and exchange is truly and specially a metaphysician The labor of man continues the work of God who in creating all beings did but externally realize the eternal laws of reason Economic science is then necessarily and at once a theory of ideas a natural theology and a psychology This general outline alone would have sufficed to explain why having to treat of economic matters I was obliged previously to suppose the existence of God and by what title I a simple economist aspire to solve the problem of certainty

Proudhon** Karl Marx, 1962 **Poverty** Paulette Dieterlen, 2005-01-01 In *Poverty* a philosophical approach the author studies various philosophical issues concerning poverty in the Program for Education Health and Food PROGRESA that was in effect

in Mexico from 1997 to 2002 and shows how theoretical discussion is necessary to clarify some ideas concerning the application of a social policy Poverty is one of the main problems concerning economics political philosophy and ethics It is an ethical problem because of its relationship with self esteem Since poverty is intimately related to social policies the philosophy of poverty must consider the distribution criteria used to attend to people in situations of extreme poverty This would involve attention to their needs preferences capabilities and well being rights The book considers social policies applied to poverty and their occasional abuse of utilitarian instruments Many are implemented without considering cultural differences including varying patterns of conduct in diverse communities Equality also matters Since poverty and inequality are not the same the study of the latter allows us to target groups found in the lowest levels of the playing field **The Poverty of Philosophy** Karl Marx,1934
