Remaking the Rhythms of Life Oliver Zimmer,2013-02-28 Across Europe the late nineteenth century marked a period of rapid economic change increased migration religious conflict and inter state competition In Germany these developments were further accentuated by the creation of the imperial state in 1870 1871 and the conflicting hopes and expectations it provoked Attempting to make sense of this turbulent period of German history historians have frequently reverted to terms such as industrialization urbanization nation formation modernity or modernization Using the prism of comparative urban history Oliver Zimmer highlights the limitations of these conceptual abstractions and challenges the separation of local and national approaches to the past He shows how men and women drew on their creative energies to instigate change at various levels Focusing on conflicts over the local economy and elementary schools as well as on nationalist and religious processions *Remaking the Rhythms of Life* examines how urban residents sought to regain a sense of place in a changing world less by resisting the novel than by reconfiguring their environments in ways that reflected their sensibilities and aspirations less by lamenting the decline of civic virtues than by creating surroundings that proved sufficiently meaningful to sustain lives In their capacity as consumers citizens and members of religious or economic associations people embarked on a multitude of journeys As they did larger phenomena such as religion nationalism and the state became intertwined with their everyday affairs and concerns

love for righteousness and truth By refusing to resist the ill will of others or the stress of circumstances for the sake of greater usefulness and a clearer point of view we deepen our conviction of righteousness as the fundamental law of life and broaden our horizon so as to appreciate varying and opposite points of view The only non resistance that brings this power is the kind which yields mere personal and selfish considerations for the sake of principles Selfish and weak yielding must always do harm Unselfish yielding on the other hand strengthens the will and increases strength of purpose as the petty obstacles of mere self love are removed Concentration alone cannot long remain wholesome for it needs the light of growing self knowledge to prevent its becoming self centred Yielding alone is of no avail for in itself it has no constructive power But if we try to look at ourselves as we really are we shall find great strength in yielding where only our small and private interests are concerned and concentrating upon living the broad principles of righteousness which must directly or indirectly affect all those with whom we come into contact
