Late Antiquity Gillian Clark, 2011-02-24. Late antiquity: decline or transformation, conflict or interaction. Late antiquity is the period c. 300–c. 800 in which barbarian invasions ended Roman Empire in Western Europe by the fifth century, and Arab invasions ended Roman rule over the eastern and southern Mediterranean coasts by the seventh century. Asking what, where, and when, Gillian Clark presents an introduction to the concept of late antiquity and the events of its time. Not only a period of cultural clashes, political restructurings, and geographical controversies, Clark also demonstrates the sheer richness and diversity of religious life, as well as the significant changes to trade, economy, archaeology, and towns. Encapsulating significant developments through vignettes, she reflects upon the period by asking the question: How much can we recognise in the world of late antiquity?

**Lectures**, 2008     **The Classical Review**, 1929     **Augustus** Barbara Levick, 2010. Throughout a long and spectacularly successful political life, the Emperor Augustus (63 BC–AD 14) was a master of spin. Barbara Levick exposes the techniques which he used to disguise the ruthlessness of his rise to power and to enhance his successes once power was achieved. There, she argues, was less difference than might appear between the ambitious youth who overthrew Anthony and Cleopatra and the admired Emperor of later years. However seemingly benevolent his autocracy and substantial his achievements, Augustus's overriding purpose was always to keep himself and his dynasty in power. Similar techniques were practised against surviving and fresh opponents, but with increasing skill and duplicity, and in the end the exhausted members of the political classes were content to accept their new ruler. This book charts the stages of Augustus's rise, the evolution of his power, and his methods of sustaining it, and finally the ways in which he used artists and literary men to glorify his image for

his own time and times to come This fascinating story of the realities of power in ancient Rome has inescapable contemporary resonance and will appeal equally to students of the Ancient World and to the general reader Barbara Levick is Emeritus Fellow and Tutor in Literae Humaniores at St Hilda's College Oxford and the author of numerous works on the history of Ancient Rome
