

# Unit 1: Information Technology Systems

Level: 3

Unit type: External

Guided learning hours: 120

---

## Unit in brief

Learners study the role of computer systems and the implications of their use in personal and professional situations.

## Unit introduction

Information technology (IT) systems have a significant role in the world around us and play a part in almost everything we do. Having a sound understanding of how to effectively select and use appropriate IT systems will benefit you personally and professionally.

You will explore the relationships between the hardware and software that form an IT system, and the way that systems work individually and together, as well as the relationship between the user and the system. You will examine issues related to the use of IT systems and the impact that they have on organisations and individuals. To complete the assessment task for within this unit, you will need to draw on your learning from across your programme.

This unit will give you a fundamental and synoptic understanding of all areas of IT, supporting your progression to an IT-related higher education course.

## Summary of assessment

This unit is externally assessed through a written examination set and marked by Pearson.

The examination is two hours in length. Learners will be assessed on their understanding of computer systems and the implications of their use in personal and professional situations.

The number of marks for the unit is 90.

The assessment availability is January and May/June each year. The first assessment availability is May/June 2017.

Sample assessment materials will be available to help centres prepare learners for assessment.
