Fundamentals of Real Estate Development James A. Graaskamp, 1981 Real Estate Law Peter E. Smirniotopoulos, 2016-11-18 Unlike existing textbooks written for law students on specific subjects impacting real estate transactions, *Real Estate Law: Fundamentals for The Development Process* uses The Development Process as a framework for understanding how the U.S. legal system regulates, facilitates, and generally impacts real estate transactions and their outcomes. This book not only addresses the nature of specific legal issues directly relating to real estate transactions but also how those issues may best be identified and addressed in advance. This book breaks down the myriad of laws influencing the selection, acquisition, development, financing, ownership, and management of real estate and presents them in context. Readers of *Real Estate Law* will gain a practical understanding from the perspective of a real property developer or real estate executive, investor, or lender of how to identify potential legal issues before they arise, when to involve a real estate attorney, how to select an attorney with the appropriate relevant experience, and how to efficiently and economically engage and manage legal counsel in addressing real estate issues. Written as a graduate-level textbook, *Real Estate Law* comes with numerous useful features including a glossary of terms, chapter summaries, discussion questions, further reading, and a companion website with instructor resources. It is a resource of great value to real estate and finance professionals both with and without law degrees engaged in one aspect or another of real estate development and finance who want to become more conversant in the legal issues impacting these transactions. *Introduction to Real Estate Development and Finance* Richard M. Levy, 2019-11-05 This book provides readers with a basic understanding of the principles that underlie real estate development. A brief historical overview and an introduction to basic principles are followed by examples from practice. Case
