Recent Advances in Material, Manufacturing, and Machine Learning Bjorn Schuller,Rajeev Gupta,Rakesh Mote,Abhishek Sharma,J.P. Giri,R.B. Chadge,2024-06-17 The main aim of the 2nd international conference on recent advances in materials manufacturing and machine learning processes 2023 RAMMML 23 is to bring together all interested academic researchers scientists engineers and technocrats and provide a platform for continuous improvement of manufactur ing machine learning design and materials engineering research RAMMML 2023 received an overwhelm ing response with more than 530 full paper submissions After due and careful scrutiny about 120 of them have been selected for presentation The papers submitted have been reviewed by experts from renowned institutions and subsequently the authors have revised the papers duly incorporating the suggestions of the reviewers This has led to significant improvement in the quality of the contributions Taylor Francis publications CRC Press have agreed to publish the selected proceedings of the conference in their book series of Advances in Mechanical Engineering and Interdisciplinary Sciences This enables fast dissemina tion of the papers worldwide and increases the scope of visibility for the research contributions of the authors

Phase Transformation in Metals Nestor Perez,2020-09-25 This textbook explains the physics of phase transformation and associated constraints from a metallurgical or materials science point of view based on many topics including crystallography mass transport by diffusion thermodynamics heat transfer and related temperature gradients thermal deformation and even fracture mechanics The work presented emphasizes solidification and related analytical models based on heat transfer This corresponds with the most fundamental physical event of continuous evolution of latent heat of fusion for directional or non directional liquid to solid phase transformation at a specific interface with a certain geometrical shape such as planar or curved front Dr Perez introduces mathematical and engineering approximation schemes for describing the phase transformation mainly during solidification of pure metals and alloys Giving clear definitions and explanations of theoretical concepts and full detail of derivation of formulae this interdisciplinary volume is ideal for graduate and upper level undergraduate students in applied science and professionals in the metal making and surface reconstruction industries

Al-Si Alloys Francisco C. Robles Hernandez,Jose Martin Herrera Ramirez,Robert Mackay,2017-07-02 This book details aluminum alloys with special focus on the aluminum silicon Al Si systems that are the most abundant alloys second only to

steel The authors include a description of the manufacturing principles thermodynamics and other main characteristics of Al Si alloys Principles of processing testing and in particular applications in the Automotive Aeronautical and Aerospace fields are addressed

Light Metals 2025 Les Edwards,2025-03-02 The Light Metals symposia at the TMS Annual Meeting Exhibition present the most recent developments discoveries and practices in primary aluminum science and technology The annual Light Metals volume has become the definitive reference in the field of aluminum production and related light metal technologies The 2025 collection includes contributions from the following symposia Alumina Bauxite Aluminum Alloys Development and Manufacturing Aluminum Reduction Technology Decarbonization and Sustainability in Aluminum Primary Processing Joint Session of Aluminum Reduction Electrode Technology and REWAS 2025 Electrode Technology for Aluminum Production Melt Processing Casting and Recycling Recycling and Sustainability in Cast Shop Technology Joint Session with REWAS 2025 Scandium Extraction and Use in Aluminum Alloys

Automotive Manufacturing Processes G.K. Awari,V.S. Kumbhar,R.B. Tirpude,S.W. Rajurkar,2023-07-14 Automotive Manufacturing Processes discusses basic principles and operational procedures of automotive manufacturing processes issues in the automotive industry like material selection and troubleshooting Every chapter includes specific learning objectives multiple choice questions to test conceptual understanding of the subject and put theory into practice review questions solved problems and unsolved exercises It covers important topics including material decision making processes surface hardening processes heat treatment processes effects of friction and velocity distribution the metallurgical spectrum of forging and surface finishing processes Features Discusses automotive manufacturing processes in a comprehensive manner with the help of applications Provides case studies addressing issues in the automotive industry and manufacturing operations in the production of vehicles Discussion on material properties while laying emphasis on the materials and processing parameters Covers applications and case studies of the automotive industry The text will be useful for senior undergraduates graduate students and academic researchers in areas including automobile engineering industrial and manufacturing engineering and mechanical engineering

Innovations in Mechanical Engineering III Jose Machado,Filomena Soares,Justyna Trojanowska,Erika Ottaviano,Petr Valášek,Mallikarjuna Reddy D.,Eduardo André Perondi,Yevheniia Basova,2024-07-15 This book reports on innovations and engineering achievements of industrial relevance with a special emphasis on mechanical engineering developments applied to modeling simulation and design of mechanical systems and synthesis of new materials for advanced manufacturing applications It gathers peer reviewed papers presented at the 3rd International Conference Innovation in Engineering ICIE 2024 held on June 26 28 2024 in Povoá o S o Miguel Island Azores Portugal All in all this first volume of a three volume set provides engineering researchers and professionals with a timely snapshot of technologies and strategies that should help shaping different industrial sectors to improve production efficiency industrial sustainability and human well being
