the freedom of working from anywhere [How To Be A Digital Nomad](#) Ida Tash,2021-04-26 [How To Be A Digital Nomad](#)
Learn How You Can Start Work Online While Travel The World Hey Fellow Reader I m Ida a Digital Nomad and online
marketer I love travel And I ve been a Digital Nomad Experiencing Outdoor travel as well Meanwhile I love travel I love to
keep myself girly as much as possible on a budget while traveling I have learned a lot since the past few years and I ll share
all the things I ve learned into this manuscript Here is a part you ll find inside this book What is a Digital nomad A digital
nomad lifestyle is becoming more of the trend and this article will tell you what a digital nomad is and the realities of a
Location Independent Business What is a digital nomad and why are there so many people who want to work this way A
digital nomad is essentially a person who works for himself Many work at home mothers do this and are known as Full Time
Gigs Others work as freelancers and do things a specific way like transcribing editing proofreading or programming However
some digital nomads work for service companies and do things like web design web programming accounting creative
writing or translation Those who work a digital nomad lifestyle do not work for a company or boss but instead work for
themselves They set their own hours and follow their own rules It is difficult to be self employed in this society because you
have to rely on the wills of others and your courage to set up your business However it is not impossible and there are
different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some
money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to
work from home Companies are recognising the potential of this new method of working and the first areas to embrace the
new way of working are the legal ones However it is not just the legal firms and public sector which are looking to
employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower
costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries
and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority
of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a
waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up
to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to
different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more

It's never been easier to design the life you want and work wherever you want. This is why I love the era that we are living in. Remote work has created the biggest shift in 100 years in how we work. That's right. Remember the invention of computers, the Internet, smartphones. Those were just warm-up rounds that enabled the latest seismic earthquake in how we live and work. In this easy-to-digest book, I share everything I know about planning, executing, and transitioning to life as a remote worker abroad. You'll learn what the term digital nomad means, why I think it's cheesy, and how you can get past the jargon to think about the underlying principles of location independence.
