of mutual fund investments which are actively managed by the investor or by the broker investing in index funds results in passive income meaning that after the initial investment you don't need to put regular time effort or expense into your investment. And many experts say that passive investments actually perform better than actively managed higher risk investments. Index funds are one way to work along with the market rather than trying to play against it and win. Passive income created through index funds is a great way to build for your future including creating a higher return for your retirement income.
