The South Korean Development Experience E. Kim, 2014-06-25 This volume explores South Korea's successful transition from an underdeveloped authoritarian country to a modern industrialized democracy South Korea's experience of foreign aid gives a unique perspective on how to use foreign aid for economic development as well as how to build a strong partnership between developed and developing countries

Rethinking Representations of Asian Women Noriko Ijichi, Atsufumi Kato, Ryoko Sakurada, 2016-01-26 Based on historic and ethnographic approaches this volume examines how the ideological images of Asian women are produced circulated appropriated and pluralized Contributors analyze the interactions between the politicized formation of ideological representations and the everyday practices of women who resist and re contextualize these images

International Research on Education for Sustainable Development in Early Childhood John Siraj-Blatchford, Cathy Mogharreban, Eunhye Park, 2016-10-14 This book offers a perspective on Education for Sustainable Development in Early Childhood ESDEC that is far removed from the business as usual notion of an extended predominantly environmental educational curriculum for preschools It presents a vision of sustainable development that has relevance to Early Childhood Care and Education ECCE from birth to school it is relevant as much to homes family support and health

settings as it is to educational settings and is as much concerned with health and wellbeing as with education The book provides a perspective that is fundamentally embedded in notions of interdependency It places an emphasis upon the importance of recognising the interdependency of peoples within and between nation states the ecological interdependencies of the natural world of humanity and nature and most significantly the interdependency of adults and children These emphases have their origins in the grassroots studies included in the ten chapters representing countries from around the world The book reflects the idea that only global solutions and initiatives are capable of addressing the global challenges of climate change environmental pollution and global threats to ecological systems and biodiversity
