

*Below is an example. The framing is an important component of the Kubotan.*

### **Keyring Attachment:**

The keyring attachment is important for two reasons. First, it converts this self-defense weapon into a practical keychain allowing you to carry it with you at all times.

Second, it makes the Kubotan look like a keychain. Remember, your Kubotan should appear innocuous. This is especially important if your self-defense situation turns into a legal battle.

### **Innocuous Looking**

As I stated earlier, a Kubotan should look harmless to the layperson. The last thing you want to do is bring attention to your weapon. Avoid carrying a Kubotan that has spikes, sharp points or any type of design that looks threatening or menacing.

Also, just because a Kubotan doesn't look menacing doesn't guarantee that you won't be stopped by the police. As a matter of fact, the TSA classified the Kubotan as a "metal and/or self-defense item" and prohibits it as a carry-on item. So, remember to check it in when flying.

*Avoid carrying a Kubotan that looks dangerous or threatening. Personal Item - prohibited/forbidden/lost baggage.*
