History of India (medieval and Modern). L. Mukherjee (Prof.), 1934 Tensions of Social History Alessandro Stanziani, 2022-12-15 This book seeks to overcome the tension between western and non western categories and tools in the study of global history showing how most western approaches to the social sciences and history have developed through transnational and colonial interactions Offering a transnational and global history of the main tools we have to understand the word and its transformations over the last three centuries Tensions of Social History explores the construction of archives and historical memory the making of statistics and their use in politics the identification of social actors and the emergence of key social theories Providing key insights into how to write history and develop social sciences in the global era while avoiding eurocentrism and cultural exceptionalism this ambitious book shows how global history is made of encounters rather than confrontations between civilizations **The Routledge Companion to Marine and Maritime Worlds**

1400-1800 Claire Jowitt, Craig Lambert, Steve Mentz, 2020-05-21 This book has been nominated for The Mountbatten Award for Best Book in the Maritime Media Awards 2021 The Routledge Companion to Marine and Maritime Worlds 1400 1800 explores early modern maritime history culture and the current state of the research and approaches taken by experts in the field Ranging from cartography to poetry and decorative design to naval warfare the book shows how once traditional and often Euro chauvinistic depictions of oceanic mastery during the early modern period have been replaced by newer global ideas This comprehensive volume challenges underlying assumptions by balancing its assessment of the consequences and accomplishments of European navigators in the era of Columbus da Gama and Magellan with an awareness of the sophistication and maritime expertise in Asia the Arab world and the Americas By imparting riveting new stories and global perceptions of maritime history and culture the contributors provide readers with fresh insights concerning early modern entanglements between humans and the vast unpredictable ocean With maritime studies growing and the ocean's health in decline this volume is essential reading for academics and students interested in the historicization of the ocean and the ways early modern cultures both conceptualized and utilized seas Re-searching Transitions in Indian History Radhika Seshan, Shraddha Kumbhojkar, 2018-06-27 The idea of transitions in Indian history emerged early when the term transition denoted shifts from one period to another The notion of transition itself has moved beyond being primarily economic to

include dimensions of society culture and ideology This volume brings together scholarly works that re examine and re define the concept of transition by looking into a range of subjects including religion culture gender caste and community networks maritime and mercantile modes ideas of nationalism and historiographies across geographical and temporal settings With contributions by leading scholars from South Asia this book will be useful to scholars and researchers of ancient history modern Indian history sociology and social anthropology and South Asian studies

liftoff for the radical transformations of the Industrial Revolution Fueled by vast productivity increases along with coal and oil capitalism pulled down old ways of life to crown itself the defining force of the modern world This epic drama shaped by state backed institutions and imperial expansion corresponded at no point to an idealized dream of free markets Drawing on archives on six continents Capitalism locates important modes of agency resistance innovation and ruthless coercion everywhere in the world opening the aperture from heads of state to rural cultivators Beckert shows that despite the dependence on expansion there always have been and are still areas of human life that the capitalist revolution has yet to reach By chronicling capitalism s global history Beckert exposes the reality of the system that now seems simply natural It is said that people can more easily imagine the end of the world than the end of capitalism If there is one ultimate lesson in this extraordinary book it s how to leave that behind Though cloaked in a false timelessness and universality capitalism is in reality a recent human invention Sven Beckert doesn t merely tote up capitalism s debits and credits He shows us how to look through and beyond it to imagine a different and larger world **Indian Books in Print** ,2003
