Intelligent Information and Database Systems Paweł Sitek, Marcin Pietranik, Marek Krótkiewicz, Chutimet Srinilta, 2020-03-03 This volume constitutes the refereed proceedings of the 12th Asian Conference on Intelligent Information and Database Systems ACIIDS 2020 held in Phuket Thailand in March 2020 The total of 50 full papers accepted for publication in these proceedings were carefully reviewed and selected from 180 submissions The papers are organized in the following topical sections advanced big data machine learning and data mining industry applications of intelligent methods and systems artificial intelligence optimization and databases in practical applications intelligent applications of internet of things recommendation and user centric applications of intelligent systems *Online Laboratories in Engineering and Technology Education* Dominik May, Michael E. Auer, Alexander Kist, 2025-01-29 This comprehensive book divided into seven sections showcases groundbreaking research findings that blend new experiences from the COVID 19 pandemic with long term research on online laboratories and virtual experimentation Providing an adequate learning experience in the laboratory has long been a major challenge in science engineering and technology education Recent years have further revealed the complexities of offering distance or remotely accessible educational settings particularly for laboratory based courses In response many academic institutions have innovated by transitioning their laboratory classes into online laboratories or providing laboratory kits for at home use This unprecedented situation has sparked numerous new developments approaches and activities revolutionizing the field With contributions from leading researchers and practitioners across diverse disciplines this book delves into current trends addresses critical challenges and uncovers future opportunities for laboratory based education in the context of online learning Whether readers are educators seeking innovative teaching strategies researchers exploring the latest advancements or academic leaders looking to enhance remote learning experiences this book provides valuable insights and practical solutions It explores how online laboratories are transforming education and discovers the potential they hold for the future **Advances on Mechanics, Design Engineering and Manufacturing IV** Salvatore Gerbino, Antonio Lanzotti, Massimo Martorelli, Ramón Mirálbes Buil, Caterina Rizzi, Lionel Roucoules, 2022-09-24 This book gathers contributions presented at the International Joint Conference on Mechanics Design Engineering and Advanced Manufacturing JCM 2022 held on June 1 3 2022 in Ischia Italy It reports on cutting edge topics in product design and manufacturing such as industrial methods for integrated product and process design innovative design and computer aided design Further topics covered include virtual simulation and reverse engineering additive manufacturing product manufacturing engineering methods in medicine and education representation techniques and collaborative and soft robotics The book is organized into five main parts reflecting the focus and primary themes of the conference The contributions presented here not only provide researchers engineers and experts in a range of industrial engineering subfields with extensive information to support their daily work they are also intended to stimulate

new research directions advanced applications of the methods discussed and future interdisciplinary collaborations

Robotic Fabrication in Architecture, Art and Design 2016 Dagmar Reinhardt, Rob Saunders, Jane Burry, 2016-02-03

The book presents the proceedings of Rob Arch 2016 the third international conference on robotic fabrication in architecture art and design The work contains a wide range of contemporary topics from methodologies for incorporating dynamic material feedback into existing fabrication processes to novel interfaces for robotic programming to new processes for large scale automated construction The latent argument behind this research is that the term file to factory must not be a reductive celebration of expediency but instead a perpetual challenge to increase the quality of feedback between design matter and making

Mechatronics 2013 Tomáš Březina, Ryszard Jabłoński, 2013-09-12 Mechatronics as the integrating framework of mechanical engineering electrical engineering computer technology control engineering and automation forms a crucial part in the design manufacture and maintenance of a wide range of engineering products and processes The mechatronics itself changes rapidly in last decade from original mixture of subfields into original approach in engineering as a technical discipline The book you are holding is aimed to help the reader to orient in this evolving field of science and technology Mechatronics 2013 Recent Technological and Scientific Advances is the fourth volume following the previous editions in 2007 2009 and 2011 providing the comprehensive and accessible coverage of advances in mechatronics presented on the 10th International Conference Mechatronics 2013 hosted this year at the Brno University of Technology Czech Republic The contributions that passed the thorough review process give an insight into current trends in research and development among Mechatronics 2013 contributing countries with paper topics covering design and modeling of mechatronic systems control and automation signal processing robotics and others keeping in mind the innovation benefits of mechatronics design approach leading to the development production and daily use of machines and devices possessing a certain degree of computer based intelligence
