Drob,1999-11-01 *Symbols of the Kabbalah* Philosophical and Psychological Perspectives provides a philosophical and psychological interpretation of the major symbols of the theosophical Kabbalah It shows that the Kabbalah particularly as it is expressed in the school of Isaac Luria provides a coherent and comprehensive account of the cosmos and humanity s role within it that is intellectually morally and spiritually significant for contemporary life **Kabbalistic Visions** Sanford L. Drob,2023-04-06 In

1944 C G Jung experienced a series of visions which he later described as the most tremendous things I have ever experienced Central to these visions was the mystic marriage as it appears in the Kabbalistic tradition and Jung s experience of himself as Rabbi Simon ben Jochai the presumed author of the sacred Kabbalistic text the Zohar Kabbalistic Visions explores Jung s 1944 Kabbalistic visions the impact of Jewish mysticism on Jungian psychology Jung s archetypal interpretation of Kabbalistic symbolism and his claim late in life that a Hasidic rabbi the Maggid of Mezhibezh anticipated his entire psychology This book places Jung s encounter with the Kabbalah in the context of the earlier visions and meditations of his Red Book his abiding interests in Gnosticism and alchemy and what many regard to be his Anti Semitism and flirtation with National Socialism Kabbalistic Visions is the first full length study of Jung and Jewish mysticism in any language and the first book to present a comprehensive Jungian archetypal interpretation of Kabbalistic symbolism Book Bulletin Chicago Public Library,1912 *Kabbalah* David M. Wexelman,2000 Kabbalah The Splendor of Judaism applies Kabbalah to everyday life activities such as business pleasure and politics David M Wexelman shows readers that the meaning of success in life and the way to world peace are made possible by the wisdom in the Kabbalah *Kabbalistic Metaphors* Sanford L. Drob,2000 Kabbalistic Metaphors Jewish Mystical Themes in Ancient and Modern Thought places the major symbols of the theosophical Kabbalah into a dialogue with several systems of ancient and modern thought including Indian Philosophy Platonism Gnosticism and the works of Hegel Freud and Jung The author shows how the Kabbalah organizes a series of ancient ideas regarding God cosmos and humanity into a basic metaphor that itself reappears in various guises in much of modern philosophy and psychology Recognition of the parallels between the Kabbalah and modern philosophy and psychology provides us with valuable insight into both the Kabbalah and modern thought and helps pave the way for a new Kabbalah one that is spiritually and intellectually relevant to contemporary man **Occult Roots of Religious Studies** Yves Mühlematter,Helmut Zander,2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas *Kabbalah and Postmodernism* Sanford L. Drob,2009 Kabbalah and Postmodernism A Dialogue challenges

certain long held philosophical and theological beliefs including the assumptions that the insights of mystical experience are unavailable to human reason and inexpressible in linguistic terms that the God of traditional theology either does or does not exist that systematic theology must provide a univocal account of God man and the world that truth is absolute and not continually subject to radical revision and that the truth of propositions in philosophy and theology excludes the truth of their opposites and contradictions Readers of Kabbalah and Postmodernism will be exposed to a comprehensive mode of theological thought that incorporates the very doubts that would otherwise lead one to challenge the possibility of theology and religion and which both preserves the riches of the Jewish tradition and extends beyond Judaism to a non dogmatic universal philosophy and ethic

Philosophy in the Islamic World Peter Adamson,2016-06-10 The latest in the series based on the popular History of Philosophy podcast this volume presents the first full history of philosophy in the Islamic world for a broad readership It takes an approach unprecedented among introductions to this subject by providing full coverage of Jewish and Christian thinkers as well as Muslims and by taking the story of philosophy from its beginnings in the world of early Islam all the way through to the twentieth century Major figures like Avicenna Averroes and Maimonides are covered in great detail but the book also looks at less familiar thinkers including women philosophers Attention is also given to the philosophical relevance of Islamic theology kalam and mysticism the Sufi tradition within Islam and Kabbalah among Jews and to science with chapters on disciplines like optics and astronomy The book is divided into three sections with the first looking at the first blossoming of Islamic theology and responses to the Greek philosophical tradition in the world of Arabic learning This formative period culminates with the work of Avicenna the pivotal figure to whom most later thinkers feel they must respond The second part of the book discusses philosophy in Muslim Spain Andalusia where Jewish philosophers come to the fore though this is also the setting for such thinkers as Averroes and Ibn Arabi Finally a third section looks in unusual detail at later developments touching on philosophy in the Ottoman Mughal and Safavid empires and showing how thinkers in the nineteenth to the twentieth century were still concerned to respond to the ideas that had animated philosophy in the Islamic world for centuries while also responding to political and intellectual challenges from the European colonial powers

The Sacred Earth Andrue J. Kahn,2023-06-12 The Torah begins by

setting forth the heavens and the Earth as God's creation impelling humanity to steward our planet for its own sake and for its ability to nurture our lives. Yet the human-Divine environment relationship seems to be in perpetual crisis. *The Sacred Earth* is a contemporary Jewish response to the looming threat of climate change, the widespread desire for experiential spirituality rooted in nature, and the continually changing relationship between humanity, nature, technology, and the Divine. The leading thinkers in this collection reflect on human vulnerability in the face of forces of nature, examine conceptions of our place in cosmology, and grapple with environmental destruction. Ultimately, with hope, they creatively explore ways to redeem this sacred Earth. It was for such a time as this that *The Sacred Earth* was published. As we face the very real possibility of an impending climate catastrophe and certainly the reality of widespread suffering because of ecological devastation, this volume gives us the spiritual resilience we will need to rise up and collectively confront the challenge. This book is a deep and urgent call to action as Jews in the broader social movement to save the planet. Rabbi Jonah Dov Pesner, Director, Religious Action Center. In this invaluable collection, Jewish thought leaders from a diversity of backgrounds and positions delve deep into text, theology, and history to bring new perspectives to the fight to save our planet. For anyone interested in what millennia of Jewish wisdom can teach us about today's climate challenges, this book is required reading. Rabbi Jill Jacobs, CEO, T'ruah, *The Rabbinic Call for Human Rights*. *The Sacred Earth*, a wide-ranging collection of Jewish teachings on ecology, offers profound insights and inspiring challenges to all of us who must immediately rise up and protect our planet and all life upon it from utter devastation. Susannah Heschel, PhD, Eli M. Black, Distinguished Professor, Dartmouth College. This impressive collection is a reminder that in the words of contributor Karenna Gore, executive director of the Center for Earth Ethics at Union Theological Seminary and daughter of former Vice President Al Gore, it is not the earth that needs fixing; it is us. A well-researched and diverse collection of Jewish writings on our collective responsibilities to the planet. Kirkus Reviews. *Books Added* Chicago Public Library, 1916.
