

Teaching Computer Networking Fundamentals Using Practical Laboratory Exercises

Nurul I. Sarkar, *Member, IEEE*

Abstract—Motivating students to learn computer networking concepts is often difficult because many students find the subject rather technical, dry, and boring. To overcome this problem, the author has prepared some practical laboratory exercises (practicals) and other materials. They are designed around a network operating system and a multiuser, multitasking operating system and are suitable for classroom use in undergraduate computer networking courses. The effectiveness of these practicals has been evaluated both formally by students and informally in discussion within the teaching team. The implementation of the practicals was judged to be successful because of the positive student feedback and also because students scored better in the final exam. This paper describes the practicals, their overall effectiveness, and plans for further projects. The impact of practicals on student learning and comprehension is also discussed.

Index Terms—Computer networking education, Linux, NetWare, server-based networking, Transmission control protocol/Internet protocol (TCP/IP).

I. INTRODUCTION

COMPUTER networking is often included as a subject in computer science, engineering, and business courses because computer networks are a fundamental component of information technology (IT) systems today.

The author strongly believes that students learn more effectively from courses that provide for involvement in practical activities, e.g., setting up a customized network, installing and configuring a server, assigning user rights to files and directories, writing and testing login scripts, etc. This view is extensively supported in the literature [1]–[3], [5]–[9]. Yet, only a limited amount of material designed to supplement the teaching of computer networking is publicly available, as searches of the Computer Science Teaching Center [4] and Special Interest Group in Computer Science Education (SIGCSE) Education Links sites reveal.¹

Therefore, the author has prepared some practical laboratory exercises (practicals) and other material that facilitate an interactive approach to teaching and learning computer networking. These practicals are designed around two operating systems: 1) a network operating system, Novell NetWare 5.1 [10], and 2) an open-source multiuser and multitasking operating system, Red Hat Linux [11]. The practicals can be used either in the

classroom as a demonstration to enhance the lecture environment or in the computer laboratory to provide practice at an introductory level.

Computer networking is described in many textbooks [12], [13], and commercial local area network (LAN) design strategy is discussed extensively in the computer networking literature [14], [15]. A number of sophisticated network simulators exist for building a variety of network models [16]–[20]. Nevertheless, by setting up and configuring actual computer networks, the students gain first-hand experience that cannot be gained through computer simulation and modeling. To date, the author has focused on developing practicals to support teaching a traditional computer networking course at the undergraduate level (second year). Such a practical learning approach to teaching and learning computer networking has been successfully applied for two years now in the Networking and Telecommunications undergraduate course (computer and information sciences curriculum) at the Auckland University of Technology (AUT), Auckland, New Zealand. The course covers various aspects of computer networking, including server hardware and software, LAN administration and management, and transmission control protocol/Internet protocol (TCP/IP) networking. The practicals and other materials are revised annually, and the use of the latest version is discussed in this paper.

The main contribution and strength of this paper is the emphasis that practical experience with server hardware and software is crucial to effective student learning. The most innovative aspect of this paper is the structuring of the laboratories and crafting of the specific exercises to be effective in complementing the lecture content of the course. The course context in which the practicals are presented is described next.

II. COURSE CONTEXT: LEARNING OUTCOMES AND TOPICS DELIVERY

The networking and telecommunications in which the aforementioned practicals are introduced has a total of 56 contact hours assigned. This course is at Level 6 or second-year degree level (one quarter of a full semester's course of study) at AUT [21], [22]. The Level 5 Programming I is the prerequisite for this course. The course goal is to produce graduates who will be able to work for networking and telecommunication companies worldwide.

A. Learning Outcomes

The course learning outcomes are listed below.

On completion of this course, students will be able to do the following:

Manuscript received February 12, 2005; revised January 31, 2006.

The author is with the School of Computer and Information Sciences, Auckland University of Technology, Auckland 1020, New Zealand.
Digital Object Identifier 10.1109/TE.2006.873967

Lab Exercises For Computer Networking Courses Introduction

Lab Exercises For Computer Networking Courses Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Lab Exercises For Computer Networking Courses Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Lab Exercises For Computer Networking Courses : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Lab Exercises For Computer Networking Courses : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Lab Exercises For Computer Networking Courses Offers a diverse range of free eBooks across various genres. Lab Exercises For Computer Networking Courses Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Lab Exercises For Computer Networking Courses Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Lab Exercises For Computer Networking Courses, especially related to Lab Exercises For Computer Networking Courses, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Lab Exercises For Computer Networking Courses, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Lab Exercises For Computer Networking Courses books or magazines might include. Look for these in online stores or libraries. Remember that while Lab Exercises For Computer Networking Courses, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Lab Exercises For Computer Networking Courses eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website

Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Lab Exercises For Computer Networking Courses full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Lab Exercises For Computer Networking Courses eBooks, including some popular titles.

FAQs About Lab Exercises For Computer Networking Courses Books

1. Where can I buy Lab Exercises For Computer Networking Courses books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Lab Exercises For Computer Networking Courses book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Lab Exercises For Computer Networking Courses books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Lab Exercises For Computer Networking Courses audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media

or recommend them to friends.

9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Lab Exercises For Computer Networking Courses books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
