

Comparing a Multiple Regression Model Across Criterion Variables

Sometimes we have multiple behaviors or responses that might be used as criterion variables. When this happens we might want to determine whether the models to predict the different criterion differ. This can be a useful way of determining whether or not behaviors or responses represent "the same thing".

For example we might have two different criteria by which we assess the "performance" of 1st year graduate students: 1) their grades and 2) the number of presentations and/or publications they obtain or collaborate on during their first year. Are the multiple regression models for predicting these two from GRE scores "the same"?

First we get the multiple regression model for each criterion, in turn. Here's the abbreviated output ...

For GPA as the criterion

Model Summary

Model	R	R Square	Adjusted R Square	Std. Error of the Estimate
1	.752 ^a	.572	.563	267.527

a. Predictors: (Constant), Verbal subscore of GRE, Quantitative subscore of GRE, Analytic subscore of GRE

Coefficients^a

Model		Unstand	Stand	Sig.
		ardized	ardize	
		B	Beta	
1	(Constant)	-1.215		.003
	Analytic subscore of GRE	6.78E-03	.501	.000
	Quantitative subscore of GRE	3.42E-03	.462	.000
	Verbal subscore of GRE	-2.3E-03	-.235	.001

a. Dependent Variable: 1st year graduate gpa -- criterion variable

For #pubs & presentations as the criterion

Model Summary

Model	R	R Square	Adjusted R Square	Std. Error of the Estimate
1	.817 ^a	.642	.638	241.76

a. Predictors: (Constant), Verbal subscore of GRE, Quantitative subscore of GRE, Analytic subscore of GRE

Coefficients^a

Model		Unstand	Stand	Sig.
		ardize	ardize	
		B	Beta	
1	(Constant)	7.706		.000
	Analytic subscore of GRE	1.1E-04	.009	.827
	Quantitative subscore of GRE	4.0E-04	.058	.152
	Verbal subscore of GRE	8.6E-03	.893	.000

a. Dependent Variable: PUBPRES

Inspection of the β weights of the two models suggests that:

- The fit of the two models to the criteria appears to be different -- $R^2 = .572$ for GPA, and $.642$ for publications/presentations.
- There is no direct test of these correlations -- can't use Fisher's Z-test because the models are from the same sample & can't use Hotelling's/Meng, etc. tests because both the criterion and the predictors producing the R values are different.
- The models appear to have very different "structures"
- Prediction of 1st year GPA involves all three GRE subscales (with somewhat less contribution from the suppressor variable GREV)
- Prediction of 1st year #publications/presentations involves only GREV, in this sample.
- To formally compare these models we will need to ...
- Apply both models to the prediction of a single criterion (we'll use GPA)
- Compare the R obtained from these applications, taking the correlation between the models into account

Comparing A Multiple Regression Model Across Groups

Christian G. Meyer

Comparing A Multiple Regression Model Across Groups:

Adopting the Track of Phrase: An Mental Symphony within **Comparing A Multiple Regression Model Across Groups**

In a world eaten by displays and the ceaseless chatter of instantaneous interaction, the melodic elegance and emotional symphony created by the published term frequently fade into the backdrop, eclipsed by the persistent noise and disturbances that permeate our lives. However, located within the pages of **Comparing A Multiple Regression Model Across Groups** an enchanting fictional treasure overflowing with fresh emotions, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, this fascinating masterpiece conducts readers on an emotional journey, well unraveling the concealed songs and profound influence resonating within each cautiously constructed phrase. Within the depths of the touching analysis, we will discover the book is key harmonies, analyze its enthralling writing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.

Comparing A Multiple Regression Model Across Groups Introduction

In the digital age, access to information has become easier than ever before. The ability to download Comparing A Multiple Regression Model Across Groups has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Comparing A Multiple Regression Model Across Groups has opened up a world of possibilities. Downloading Comparing A Multiple Regression Model Across Groups provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Comparing A Multiple Regression Model Across Groups has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Comparing A Multiple Regression Model Across Groups. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Comparing A Multiple Regression Model Across Groups. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Comparing A Multiple Regression Model Across Groups, users

Comparing A Multiple Regression Model Across Groups

should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Comparing A Multiple Regression Model Across Groups has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Comparing A Multiple Regression Model Across Groups Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Comparing A Multiple Regression Model Across Groups is one of the best book in our library for free trial. We provide copy of Comparing A Multiple Regression Model Across Groups in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Comparing A Multiple Regression Model Across Groups. Where to download Comparing A Multiple Regression Model Across Groups online for free? Are you looking for Comparing A Multiple Regression Model Across Groups PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Comparing A Multiple Regression Model Across Groups. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Comparing A Multiple Regression Model Across Groups are for sale to free

Comparing A Multiple Regression Model Across Groups

while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials.
