2008 was the 31st Annual German Conference on Artificial Intelligence held September 23-26 at the University of

Kaiserslautern and the German Research Center for Artificial Intelligence DFKI GmbH in Kaiserslautern Germany The

conference series started in 1975 with the German Workshop on AI (GWA) which took place in Bonn and represents the first

forum of its type for the German AI Community Over the years AI has become a major field in computer

science in Germany involving a number of successful projects that received much international attention Today KI conferences

are international forums where participants from academia and industry from all over the world meet to exchange their

recent research results and to discuss trends in the field Since 1993 the meeting has been called the Annual German

Conference on Artificial Intelligence designated by the German acronym KI This volume contains the papers selected out of

77 submissions including a number of submissions from outside German speaking countries In total 15 submissions 19%

were accepted for oral and 30-39% for poster presentation Oral presentations at the conference were in single track Because of this

the choice of presentation form oral poster was based on how well reviews indicated that the paper would fit into one or the

other format The proceedings allocate the same space to both types of papers In addition we selected six papers that show

high application potential describing systems or prototypical implementations of innovative AI technologies They are also

included in this volume as two page extended abstracts
