## Oracle Bone Script In China Chinese Edition:

**The Oracle Bone Inscriptions from Huayuanzhuang East** Adam C. Schwartz, 2019-11-18 Since 1899 more than 73 000 pieces of inscribed divination shell and bone have been found inside the moated enclosure of the Anyang core at the former capital of the late Shang state. Nearly all of these divinations were done on behalf of the Shang kings and has led to the apt characterization that oracle bone inscriptions describe their motivations, experiences, and priorities. There are however much smaller sets of divination accounts that were done on behalf of members of the Shang elite other than the king. First noticed in the early 1930s, grouped and periodized shortly thereafter, oracle bone inscriptions produced explicitly by or on behalf of royal family groups reveal information about key aspects of daily life in Shang society that are barely even mentioned in Western scholarship. The newly published Huayuanzhuang East Oracle Bone inscriptions are a spectacular addition to the corpus of texts from Anyang: hundreds of intact or largely intact turtle shells and bovine scapulae densely inscribed with records of the divinations in which they were used. They were produced on the behalf of a mature prince of the royal family whose parents both alive and still very much active almost certainly were the twenty-first Shang king Wu Ding (c. 1200 B.C.) and his consort Lady Hao (Fu Hao). The Huayuanzhuang East corpus is an unusually homogeneous set of more than two thousand five hundred divination records produced over a short period of time on behalf of a prince of the royal family. There are typically multiple records of divinations regarding the same or similar topics that can be synchronized together, which not only allows for remarkable access into the esoteric world of divination practice but also produce micro-reconstructions of what is essentially East Asia's earliest and most complete day and month planner. Because these texts are unusually linguistically transparent and well-preserved, homogeneous in orthography and content, and published to an unprecedentedly high standard, they are also ideal material for learning to read and interpret early epigraphic texts. The Huayuanzhuang East oracle bone inscriptions are a tremendously important Shang archive of material documents that were produced by a previously unknown divination and scribal organization. They expose us to an entirely fresh set of perspectives and preoccupations centering on a member of the royal family at the commencement of China's historical period. The completely annotated English translation of the inscriptions is the first of its kind and is a vibrant new source of Shang history that can be accessed to rewrite and supplement what we know about early Chinese civilization and life in the ancient world. Before the discerning reader are the motives, preoccupations, and experiences of a late Shang prince working simultaneously in service both for his Majesty, his parents, and his own family.

**Deciphering Oracle Bone Script** 王秉鑫 (Benxing Wang) 王秉鑫, 2024-08. Deciphering Oracle Bone Script contains 1423 characters, each with its phonetic, semantic, and graphical features. These oracle bone characters were the commonly used script during the Yin-Shang period over three thousand years ago. They remained deeply buried underground until they were discovered in 1899. The fact proves that today's magnificent and mature Chinese characters were nurtured and born as babies in the Yin-Shang period more than three

thousand years ago Therefore if compared to the stages of life the oracle bone script is the childhood of Chinese characters Learning oracle bone script is not difficult dear friends You will surely love the oracle bone script master it and easily step into the world of the Chinese language Some Western friends learning Chinese characters may find them difficult to understand and learn easily giving up and gradually losing interest and confidence in continuing to learn Chinese This book **Deciphering Oracle Bone Script** is concise and convenient suitable for reading and learning **Arts of the Sung and Yüan** Metropolitan Museum of Art (New York, N.Y.),1996 [A Little Primer of Chinese Oracle-bone Inscriptions with Some Exercises](#) Ken'ichi Takashima,2019 This Little Primer introduces students of classical Chinese to the earliest extant body of Chinese texts dating from about the 13th to the 10th centuries BC These texts are known as Oracle Bone Inscriptions and relate to any matter that was deemed sufficiently important to require consultation with the ancestors and deities of the Shang aristocracy Indispensable to the study of the history of Chinese religion politics agriculture the calendar system hunting warfare medicine sacrificial and ritual practices and other matters of life in China s first historical dynasty these more than 130 000 pieces of inscribed turtle plastrons and bovine scapulas though mostly fragmented comprise more text in terms of number of characters than the combined transmitted traditional pre Qin classical Chinese texts The material is presented in three forms normalized transcriptions of the texts into modern standard Chinese script translations into English and ink squeezes or rubbings of the original texts There is also a detailed linguistic and philological explanation of the text plus an annotation and commentary on the cultural and historical background of the material No special background in analyzing grammar and syntax will be required to understand most if not all of the materials presented in this Little Primer
