Color Overhead Transparencys as modern visual aids become more and more part of biology, physics and chemistry teaching programs. Therefore we have created a new and comprehensive range of Transparency Atlases of outstanding quality. The atlases consist of large-format transparency sheets (size 22 x 28 cm) comprising a great variety of beautiful drawings, diagrams, tables, anatomical pictures, brilliant micro- and macrophotographs, electron and X-ray photographs, impressive life cycles, human photographs, landscape photographs, scenes, test data and results, etc.

- Each Transparency atlas is accompanied by a comprehensive interpretation text giving a detailed description of all pictures, based on the latest scientific findings (available in different languages).
- Our multi-colored Transparencys are printed by a special process and excel by reason of their high projection quality.
- Transparencys and texts are held in a strong plastic file with ring mechanism.
- **NEW in 2011:** Sketch and work-sheets with semidiagrammatic designs and texts. Teacher may take photocopies from the sheets and use for classroom work and tests.
