Living Intensity Understanding Sensitivity Excitability:

Living with Intensity Susan Daniels, Michael Marian Piechowski, 2009 This book describes the overexcitabilities often associated with gifted children and adults as well as strategies for dealing with children and adults who experience them It also provides essential information on Dabrowski s Theory of Positive Disintegration Learn practical methods for nurturing sensitivity intensity perfectionism Handbook for Counselors Serving Students With Gifts and Talents Tracy L. Cross, Jennifer Riedl Cross, 2021-09-30 The second edition of *Handbook for Counselors Serving Students With Gifts and Talents* provides the definitive overview of research on the general knowledge that has been amassed regarding the psychology of gifted students This book Introduces the reader to the varied conceptions of giftedness Covers issues specific to gifted children and various intervention methods Describes programs designed to fulfill the need these children have for challenge Is updated and expanded addressing contemporary issues Reflects the latest research on giftedness With chapters authored by leading experts in the field *Handbook for Counselors Serving Students With Gifts and Talents* is a resource professionals can turn to for answers to a wide variety of questions about gifted children *Rethinking Empathy through Literature* Meghan Marie Hammond, Sue J. Kim, 2014-07-11 In recent years a growing field of empathy studies has started to emerge from several academic disciplines including neuroscience social psychology and philosophy Because literature plays a central role in discussions of empathy across disciplines reconsidering how literature relates to feeling with others is key to rethinking empathy conceptually This collection challenges common understandings of empathy asking readers to question what it is how it works and who is capable of performing it The authors reveal the exciting research on empathy that is currently emerging from literary studies while also making productive connections to other areas of study such as psychology and neurobiology While literature has been central to discussions of empathy in divergent disciplines the ways in which literature is often thought to relate to empathy can be simplistic and or problematic The basic yet popular postulation that reading literature necessarily produces empathy and pro social moral behavior greatly underestimates the complexity of reading literature empathy morality and society Even if empathy were a simple neurological process we would still have to differentiate the many possible kinds of empathy in relation to different forms of art All the complexities of literary and cultural studies have still to be brought to bear to truly understand the dynamics of literature and empathy **Nurturing Creativity in the Classroom** Ronald A. Beghetto, James C. Kaufman, 2010-06-28 *Nurturing Creativity in the Classroom* is a groundbreaking collection of essays by leading scholars who examine and respond to the tension that many educators face in valuing student creativity but believing that they cannot support it given the curricular constraints of the classroom Is it possible for teachers to nurture creative development and expression without drifting into curricular chaos Do curricular constraints necessarily lead to choosing conformity over creativity This book combines the perspectives of top educators and psychologists to generate practical advice for considering and addressing the challenges of supporting creativity within the

classroom It is unique in its balance of practical recommendations for nurturing creativity and thoughtful appreciation of curricular constraints This approach helps ensure that the insights and advice found in this collection will take root in educators practice rather than being construed as yet another demand placed on their overflowing plate of responsibilities
