**Cases in Operations Management** Robert D. Klassen, 2006 The Ivey Casebook Series is a co-publishing partnership between SAGE Publications and the Richard Ivey School of Business at The University of Western Ontario. Due to their popularity in more than 60 countries, approximately 200 new cases are added to the Ivey School of Business library each year. Each of the casebooks comes equipped with instructor's resources on CD-ROM. These affordable collections will not only help students connect to real-world situations but will benefit corporations seeking continued education in the field as well. Cases in Operations Management: Building Customer Value Through World-Class Operations is unique in its strong grounding in real-world decisions. The cases are structured into six chapters, each of which offers an overview of key concepts. Given that most managers will need to function effectively in an international context, the cases draw from challenges faced by experienced managers in such varied settings as China, France, India, Italy, Japan, the Netherlands, Trinidad, Vietnam, and others, in addition to the United States and Canada. These cases continue to illustrate basic concepts while expanding students' understanding of economic, political, and cultural concerns that must be interwoven into such key areas as process design, quality, and supply chain management. The following are represented in this casebook: Strong decision orientation of real-world cases; Clear development of the link between business processes and customer value; Diversity of international case settings; Mixture of cases, simulations, and in-class exercises; Includes Instructor's Resources on CD-ROM with detailed 6-10 page casenotes for each case; preparation questions for students to review before class; discussion questions and suggested further readings. The IVEY Casebook Series includes: Cases in Business Ethics, Cases in Entrepreneurship, Cases in Gender Diversity in Organizations, Cases in Operations Management, Cases in Organizational Behavior, Cases in the Environment of Business, Cases in Alliance Management, Mergers and Acquisitions Text and Cases.

**Belleville** Gerry Boyce, 2009-02-15 Winner of the Ontario Historical Society's Fred Landon Award for Best Regional History. Belleville on the shores of the Bay of Quinte traces its beginnings to the arrival of the United Empire Loyalists. For 30 years, the centre of the present city was reserved for the Mississauga First Nation. White settlers who built dwellings and businesses on the land paid annual rent to them until the land was surrendered and a town plot laid out in 1816. The new town quickly became an important lumbering, farming, and manufacturing centre. Early influences include the Marmora Iron Works of the 1820s, the first railway in 1856, Ontario's first gold rush in 1866, and prominent citizens such as noted pioneer author Susanna Moodie and Sir Mackenzie Bowell, Canada's fifth prime minister. This is a personal history of Belleville based on Gerry Boyce's half-century of research. Embedded throughout are interesting and obscure stories about scandals, murders, and hauntings: the underbelly of the growth of a city.

Liber Mahameleth Jacques Sesiano, 2014-03-18 The Liber mahameleth is a work in Latin written in the mid-12th century, based mainly on Arabic sources from Islamic Spain. It is now our principal source on mathematics in Islamic Spain at that

time There are few extant Arabic texts and no one is as complete as the LM It is also the second largest mathematical work from the Latin Middle Ages the other is by Fibonacci some 50 years later Since the three main manuscripts preserving it are incomplete and there are many scribal errors a reliable Latin text has been established which reports in notes the various readings of the manuscripts and the errors in them This is how a so called critical edition is made This edition of the Latin text is preceded by General Introduction describing the various manuscripts the content of the work and what we know about its author Part Two of the volume is a translation of the text and ends with a glossary of Latin terms The glossary will be of great importance for the knowledge of Latin scientific terms from that time since there is no other mathematical text of this size from the 12th century Part Three begins with a short introduction and then analyzes all the problems from the text with a summary of the mathematical methods involved in each chapter The commentary is a companion to the translation and explains the author's solving methods The Old Loyalist Allan Ross Davis,1908 **Herd Register of Jersey Cattle** ,1930
