Foreign Policy Theories Actors Cases Pdf:

Foreign Policy Steve Smith, Amelia Hadfield, Timothy Dunne, 2012-06-21 Foreign Policy is unique in that it combines theories actors and cases in one volume This approach encourages the reader to appreciate a balanced view of the theory and how foreign policy is carried out in the real world *NATO's Democratic Retrenchment* Henrik B.L. Larsen, 2019-07-02 Exploring NATO's post Cold War determination to support democracy abroad this book addresses the alliance's adaptation to the new illiberal backlashes in Eastern Europe the Western Balkans and Afghanistan after the alleged return of history The book engages the question of what has driven NATO to pursue democratisation in face of the significant region specific challenges and what can explain policy expansion or retrenchment over time Explaining NATO's adaptation from the perspective of power dynamics that push for international change and historical experience that informs grand strategy allows wider inferences not only about democratisation as a foreign policy strategy but also about the nature of the transatlantic alliance and its relations with a mostly illiberal environment Larsen offers a theoretical conception of NATO as a patchwork of one hegemonic and several great power interests that converge or diverge in the formulation of common policy as opposed to NATO as a community of universal values This volume will appeal to researchers of transatlantic relations NATO's functional and geographical expansion hegemony and great power politics democracy promotion lessons of the past Neoclassical Realism alliance theory and the crisis of the liberal world order

The Role of the Highest Courts of the United States of America and South Africa, and the European Court of Justice in Foreign Affairs Riaan Eksteen, 2019-06-22 This book deals with what the author considers a sorely neglected question namely the role of the judiciary in states foreign policy processes Eksteen argues that the impact of the judiciary on foreign affairs is understudied and that recognition of its role in foreign affairs is now due This makes it a ground breaking scholarly contribution that should first of all prove of value to students scholars researchers and practitioners in the two broad fields of politics and law for the wide scope of issues it covers and the very comprehensive reference lists it contains Secondly professionals working within politics including members of the legislatures of the United States the European Union and South Africa as well as members of the judiciaries there should find this book of benefit A detailed examination has been undertaken of the role of the United States Supreme Court the two high courts in South Africa namely the Constitutional Court and the Supreme Court of Appeal and the European Court of Justice of the European Union in foreign affairs The author substantiates the unmistakable fact that these Courts have become involved in and influence foreign affairs Furthermore that they have not shied away from using their judicial authority when dealing with cases touching on foreign affairs and especially presidential overreach The lack of recognition of the judiciary's role in foreign affairs is still noticeable in Foreign Policy Analysis (FPA) literature This book concludes that FPA has to accept and give proper recognition to the judiciary and its increasing relevance in foreign affairs Dr Riaan Eksteen is a Former South African Ambassador residing in Namibia from 1968-1973 he

served at the South African Embassy in Washington D C between 1976 1994 he subsequently served as Ambassador and Head of Mission at the U N in New York 1976 81 in Namibia 1990 91 at the U N in Geneva 1992 94 and in Turkey with accreditation also to Azerbaijan Kyrgyzstan Turkmenistan and Uzbekistan 1995 97 He obtained his Ph D from the University of Johannesburg in October 2018

European Security Governance and the European Neighbourhood after the Lisbon Treaty Christian Kaunert, Sarah Léonard, 2013-09-13 The EU has often been considered to be a weak security actor However any assessment of the EU s role in international security is underpinned by a specific understanding of security This book is based on a broad understanding of security We consider that security concerns are increasingly triggered by challenges such as terrorism climate change mass migration flows and many other non traditional security issues This book tries to capture these aspects of the EU s fast changing security policies following the entry into force of the Lisbon Treaty on 1 December 2009 There are several common themes stemming from a combined reading of the chapters Firstly the EU has sought to simultaneously pursue its security objectives and spread its values such as democracy the rule of law and human rights by encouraging reforms in its neighbourhood However it is increasingly evident that there are tensions and contradictions between these two objectives which can be illuminated and better understood by considering another strand of literature with which there has been little engagement in EU studies to date namely the literature on human security This book is the first to analyse these hugely topical developments in European security after the Lisbon Treaty It was published as a special issue of Perspectives on European Politics and Society

Challenges of Governance Ronald L. Holzacker, Wendy Guan Zhen Tan, 2021-01-05 This book presents a varied and multi dimensional view of challenges of governance in Southeast Asia and ASEAN through the variety of disciplines and nationalities involved In light of 50 years of regional collaboration and integration as the member states of ASEAN seek to chart out a future path for the region this book is dedicated to showcasing different challenges to governance that occur due to internal and external pressures for the various member states The editors are particularly interested in the multi level governance challenges on issues of democracy equity and sustainability the adaptation of policies and norms to fit an ASEAN way and the changing roles of civil society and citizens in this process of seeking a common identity and voice The book is divided into four sections The first section introduces the fundamental political institutional dynamics that are in play within the region and the interplay between regional forces and national norms The second section tackles the economic and legal discourses that various member states face in relation to external and internal pressures related to international and regional trade and industry The third section focuses on issues of sustainability and equity resulting from the vast socio spatial differences in the varied cities and regions of member states In the final section the authors discuss dilemmas resulting from economic growth in exploitative industries and the impact that has on the local and regional community through the lenses of inclusivity and justice Written by a diverse collection of policy makers researchers educators and activists from the regions discussed this book provides an authoritative first hand analysis

of key challenges to governance in Southeast Asia and ASEAN As such this volume is an excellent resource for academics advanced masters and PhD candidates interested in the region and major Southeast Asian research institutes and centers as well as policy makers and influencers at both national and regional levels within the region

Small Island Developing States Stefano Moncada, Lino Briguglio, Hilary Bambrick, Ilan Kelman, Catherine Iorns, Leonard Nurse, 2021-10-19 This book explores how vulnerable and resilient communities from SIDS are affected by climate change proposes and where possible evaluates adaptation activities identifies factors capable of enhancing or inhibiting SIDS people's long term ability to deal with climate change and critiques the discourses vocabularies and constructions around SIDS dealing with climate change The contributions written by well established scholars as well as emerging authors and practitioners in the field include conceptual papers coherent methodological approaches and case studies from the communities based in the Caribbean Sea and the Indian Atlantic and Pacific Oceans In their introduction the editors contextualise the book within the current literature They emphasise the importance of stronger links between climate change science and policy in SIDS both to increase effectiveness of policy and also boost scholarly enquiry in the context of whose communities are often excluded by mainstream research This book is timely and appropriate given the recent commission by the Intergovernmental Panel on Climate Change IPCC of a Special Report that aims at addressing vulnerabilities especially in islands and coastal areas as well as the adaptation and policy development opportunities following the Paris Agreement Coupled with this there is also the need to support the policy community with further scientific evidence on climate change related issues in SIDS accompanying the first years of implementation of the United Nations Sustainable Development Goals

Transatlantic Trends in Democracy Promotion Dr Rouba Al-Fattal Eeckelaert, 2013-02-28 How did the EU US and Canada decide and implement their electoral assistance in the Palestinian Territories PT Why did the EU the US and Canada embark on assisting the elections in the PT and what factors influenced their electoral assistance What lessons can be learned for other countries approaching elections after a long period of conflict This book answers these questions and charts the process of electoral assistance with an in depth analysis of each transatlantic actor's electoral assistance in the PT It shows that despite the many institutional and operational differences between the EU the US and Canada the three actors do share common interests and influencing factors which often unify their response The book also reveals the limitations facing electoral assistance and the implications of this on the sustainability clarity consistency and responsiveness of the policy In this systematic comparative analysis of European American and Canadian efforts to assist elections and transform governance in conflict zones Rouba Al Fattal greatly advances the empirical knowledge of electoral assistance and provides the first steps needed to reform electoral assistance policy to cope with the challenges of the twenty first century
